

Announcement of the list of new energy storage industry alliances

Overview

How many new energy storage projects were commissioned in July 2025?

According to the incomplete statistics of the CNESA DataLink Global Energy Storage Database, in July 2025, the total newly commissioned capacity of domestic new energy storage projects was 3.24GW/8.79GWh, a year-on-year decrease of -35%/-26% and a month-on-month decrease of -28%/-23%.

What are China's new energy storage business models?

China's new energy storage business models have already shifted. Energy storage products with high technical performance, strong safety assurance, and reasonable costs will be more competitive in the market and will also promote the industry's continuous upgrade toward high-quality development.

What is China doing with new energy storage?

In just a few short years, China's scale of new energy storage has ranked first in the world. New models and new business forms are developing vigorously, with smart microgrids, virtual power plants and others entering the fast lane of development.

What are the top 10 Chinese energy storage systems shipments in 2025?

In the first half of 2025, the Top 10 Chinese companies in terms of energy storage system shipments in the domestic market were, in order: CRRC Zhuzhou Institute, HyperStrong, Envision Energy, Sungrow, SCETL, XYZ Storage, ROBESTEC, Xj Electric, Goldwind, and ZTT.

How many GW of energy storage will be installed this year?

A total of 64 gigawatts (GW) of new capacity is anticipated this year, with 33.3 GW coming from solar and 18.3 GW from battery storage. If realized, this would mark the strongest year yet for energy storage installations in the country.

What is the western China energy storage Forum?

After ten years of deep cultivation, the “Western China Energy Storage Forum” has grown into an important platform promoting coordinated development of new energy and energy storage in western China.

Announcement of the list of new energy storage industry alliances

The Energy Storage Alliance: Powering a Sustainable Future

...

Let's face it - the energy storage world moves faster than a Tesla Plaid Mode acceleration. Enter the Energy Storage Alliance, the industry's answer to organized chaos. ...

THE CHINA BATTERY ENERGY STORAGE SYSTEM ...

In terms of BESS infrastructure in particular and its development timeline, China's BESS market really saw take off only recently, in 2022, when according to the National Energy Administration

...

China Releases First National- Level Policy Document Guiding Storage

On October 11, 2017, China released its first national-level guiding-policy document covering energy storage. The document, "Guiding Opinions on Promoting Energy Storage Technology ...

Weifang aims to build China's leading new energy storage hub

Weifang is taking bold steps to advance its clean energy ambitions with the launch of the New Energy Storage Industry Alliance on March 7. The inaugural meeting brings together 64 ...

Industry News -- China Energy Storage Alliance

4 ???· Beyond the "Five Major and Six Minor", Third-Party Enterprises Accelerate Their Entry into the Energy Storage Market -- Analysis of the New ...

Thermal Battery Alliance Announcement -- Thermal ...

A coalition of leading energy technology companies has announced the formation of the Thermal Battery Alliance, the first industry ...

China New Energy Storage Industry Innovation Alliance ...

Seetao news is new media in China influential original engineering, engineering news, macro policy as the core, pay close attention to all the way to China area initiative of the world ...

Industry News -- China Energy Storage Alliance

4 ???· In 2024, investment completed in key projects such as new energy storage, charging and swapping infrastructure, hydrogen energy, and generation-grid-load-storage integration ...

India Steps Up: Viability Gap Funding Boosts Battery Storage

The Indian government's announcement of a second tranche of viability gap funding to boost Battery Energy Storage Systems has been lauded by the India Energy ...

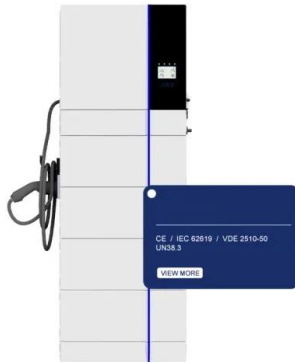

The 13th Energy Storage International Summit and Exhibition ...

The Energy Storage International Summit and Exhibition is hosted by the Zhongguancun Energy Storage Industry Technology Alliance and organized by Beijing United Energy Storage ...

First Ever Industry Association for Battery Storage Launched

Expanded mandate positions Global Solar Council as the first global industry association to unite solar plus battery storage - the essential building block of a future powered ...

International Energy Storage Alliance

International Energy Storage Alliance Research and development on energy storage in all countries would likely be strengthened by greater international ...

US energy storage sector pledges USD 100bn investment

The pledge includes investment in new battery manufacturing facilities and procurement of US batteries for US energy storage projects. According to the association, it is ...

International Energy Storage Alliance

International Energy Storage Alliance Research and development on energy storage in all countries would likely be strengthened by greater international organization and collaboration. ...

Shandong Advances Energy Transition with 18.6GW of New Energy Storage

This announcement marks a significant continuation of Shandong's multi-year strategy to accelerate the deployment of new energy storage systems in support of its dual ...

Industry News -- China Energy Storage Alliance

4 ???· Oct 13, 2025 Beyond the "Five Major and Six Minor", Third-Party Enterprises Accelerate Their Entry into the Energy Storage Market -- Analysis ...

India's Union Budget 'addresses energy storage ...

The Indian government's decision to classify grid-scale energy storage as infrastructure addresses the industry's "biggest concerns" by ...

China New Energy Storage Industry Innovation ...

The establishment of the China New Energy Storage Industry Innovation Alliance is a powerful alliance of key enterprises and scientific ...

Global battery and energy storage network

The International Battery and Energy Storage Alliance IBESA is the first global battery and energy storage network of excellence. Our goal is to strengthen storage companies in their ...

CNESA Officially Released the 2024 China Energy Storage ...

On April 10, 2025, the 13th Energy Storage International Conference and Expo (ESIE 2025), jointly hosted by the China Energy Research Society, the China Energy Storage Alliance ...

list of new energy storage industry alliances announced

We focus exclusively on energy storage and speak for the entire industry because we represent the full value chain range of energy storage opportunities in our own markets and internationally.

announcement of the list of new energy storage industry alliances

On May 13, the National Energy Administration of China issued The List of Key Technical Equipment & Projects in The Energy Sector of 2021, including 75 technical equipment ...

FLEXIBLE SETTING OF MULTIPLE WORKING MODES

China's energy storage industry rides policy stimulus for growth

To realize the transition to a new type of power system with new energy as the main body, He underscored that new types of power storage will play an increasingly important role. New ...

Energy Storage Industry In The Next Decade: Technological ...

Introduction Driven by the global energy transformation and carbon neutrality goals, the energy storage industry is experiencing explosive growth, but it is also facing ...

Featured Stories -- China Energy Storage Alliance

Featured StoriesThe China Energy Storage Alliance's Industry Tracking database has traced an ever increasing number of new companies entering the energy storage ...

India's Energy Future: IESA Seeks Stronger Storage Policy

...

In a move to fast-track India's energy transition, the India Energy Storage Alliance (IESA) has submitted a comprehensive policy and regulatory framework to the government ...

U-M engineers to partner in new DOE-backed research hub for ...

Energy Storage Research Alliance (ESRA), a U.S. Department of Energy (DOE) Energy Innovation Hub led by Argonne National Laboratory, brings together nearly 50 world ...
