Overview

As of 2024, the cost of an 800kW solar system in Pakistan typically ranges from PKR 72,000,000 to PKR 76,800,000. The price can vary based on several factors, including equipment quality, installation complexity, and additional features.

As of 2024, the cost of an 800kW solar system in Pakistan typically ranges from PKR 72,000,000 to PKR 76,800,000. The price can vary based on several factors, including equipment quality, installation complexity, and additional features.

In 2025, Longi panels are widely available across the country, with per-watt prices typically ranging between Rs. 29 to Rs. 37, depending on the model and specification. All solar panels normally come with proper documentation and warranty support. What Is the Latest Longi Solar Price in Pakistan.

Solar panel prices in Pakistan vary not only by brand but also by wattage. Buyers often select panels based on the watt size that fits their residential or commercial energy needs. Smaller panels like 150 W and 200 W are ideal for small setups or hybrid solutions, while high-watt modules like 540 W.

With the WAPDA charging an average unit price per KWH of roughly 65 PKR, consumers with monthly consumption reaching 500 units struggle with the huge amount required for electricity usage. This financial strain has pushed many to seek renewable energy alternatives for their homes and businesses.

That gives you the system size in kW. What does installation cost?

Solar panels cost around PKR 30,000–50,000 per kW. The final price depends on panel type, system size, and labor. How much can I save?

Solar panels can lower or even eliminate your electricity bills. Net metering lets you sell extra.

Latest solar panel prices in Pakistan for 2025. Compare rates per watt for top brands like Jinko, Canadian, LONGI & Trina. Complete buying guide with
