

Average household energy storage price per 10kWh in Australia

Overview

As of May 2025, the average price of solar batteries in Australia ranges from \$900 to \$2,000 per kilowatt-hour (kWh) of storage. A 10kWh system typically costs a little over \$10,000, while a larger 16kWh system may approach \$16,000, depending on the brand, performance, and installation factors. How much does a 10 kWh solar battery cost in Australia?

The average price for a 10 kWh solar battery ranges between \$8,000 - \$10,000. While the uptake of solar panels in Australia is really strong, the same cannot be said for solar batteries. A newer technology, battery storage has been viewed as expensive – especially when comparing the payback of a battery system against its expected life.

How much does a 6.6kW Solar System cost in Australia?

Therefore, on average, a 6.6kW solar system is more than capable of filling a 10kW solar battery. As shown in the table, the average installed cost for a 10kW solar battery system in Australia ranges from \$8,000 to \$15,500. The total daily energy consumption for the above appliances is calculated as follows:.

How much do solar batteries cost in Australia?

As of May 2025, the average price of solar batteries in Australia ranges from \$900 to \$2,000 per kilowatt-hour (kWh) of storage. A 10kWh system typically costs a little over \$10,000, while a larger 16kWh system may approach \$16,000, depending on the brand, performance, and installation factors. Here's a breakdown of average prices.

How much does a 10kwh solar battery cost in 2025?

Quick Answer: What's the Price of a 10kWh Solar Battery in 2025?

In Australia, the average cost of a 10kWh solar battery system ranges between \$8,500 to \$14,000, including standard installation. Note: Prices can vary depending on location, installer, rebates, and additional system

requirements.

Should you invest in a 10kW solar battery storage system?

For those who already have solar panels or are considering a full solar power setup, investing in a 10kW battery storage system can significantly enhance energy performance and long-term value. What Is a 10kW Solar Battery?

A 10kW solar battery refers to an energy storage system capable of delivering 10 kilowatts of power output.
