

Average mobile ESS unit price per 1GW in New Zealand

Overview

Where can I find the quarterly survey of domestic electricity prices (qsdep)?

At URL provided, find the link to the Excel spreadsheet under the 'Quarterly Survey of Domestic Electricity Prices (QSDEP)' heading, This data forms the table Energy - Quarterly domestic electricity prices by town or city Feb 2004-May 2025. The QSDEP is a price indicator series that complements sales-based electricity cost data.

Where can I find a comparison of New Zealand energy statistics?

This work is licensed under a Creative Commons Attribution 3.0 New Zealand License. You can access comparisons of New Zealand energy statistics with those of other countries directly from the International Energy Agency website. International Energy Agency website.

How much does electricity cost in Kerikeri & Westport?

For context, Kerikeri residents face the highest national rates at \$3,222 per year, while Westport households pay approximately \$3,221 annually. Christchurch, by comparison, enjoys rates 23% lower than Auckland's North Shore, with average annual bills of \$2,213 (comparison of electricity costs).

How much does an electricity retailer charge a consumer?

An electricity retailer may charge a consumer 100 cents/day and 22c/kWh of electricity consumed. 26.6 c/kWh — that is, $(2125/8000) \times 100$. If the Retailer offered a 10% prompt payment discount, the final cost to the consumer would be 23.9 c/kWh. The line charge component is calculated in a similar manner (all figures include GST).

How do you calculate residential electricity cost per unit?

The residential electricity cost per unit is derived by dividing the dollar value of residential electricity sales by the number of kilowatt-hours (kWh) sold to residential customers. The survey also reports the 'lines' component of the

residential costs. This covers both the distribution and transmission components of the residential costs.

When are retail tariffs surveyed in New Zealand?

A limited selection of publicly advertised retail tariffs are surveyed for around 40 towns and cities across New Zealand. Prices are surveyed as a snapshot at the mid-point of each quarter (15 February, 15 May, 15 August and 15 November each year).

Average mobile ESS unit price per 1GW in New Zealand

Cost Projections for Utility-Scale Battery Storage: 2023 Update

Executive Summary In this work we describe the development of cost and performance projections for utility-scale lithium-ion battery systems, with a focus on 4-hour duration ...

Gas Turbine costs \$/KW

Figure 1. Benchmark SC Prices (Units <100MW). For simple cycle gensets under 100MW power rating, prices fall off from almost \$1,400 per kW for a 200kW micro-turbine ...
