

## Average residential ESS price per 20kWh in Switzerland

## Overview

---

How much does electricity cost in Switzerland?

Accordingly, the average electricity costs in Switzerland between CHF 17 and CHF 140 per month. Based on the Example of a tumble dryer Let's take a closer look at how you can calculate your electricity costs. For our example, we assume that you have a tumble dryer in the new energy class D (previously A).

What is the lowest spot price in Switzerland?

Lowest spot price today is 7 ct/kWh in area CH1. Highest is 14 ct/kWh in area CH1. How much does it cost right now?

Detailed spot price on electricity hour by hour in Switzerland today. Check how much it cost to use electrical appliances with the current electricity prices in Switzerland.

How much does electricity cost in CH1?

Current price for respective area. Does not include tax, local vat or other surcharges. Lowest spot price today is 7 ct/kWh in area CH1. Highest is 14 ct/kWh in area CH1. How much does it cost right now?

Detailed spot price on electricity hour by hour in Switzerland today.

Where do electricity companies buy electricity in Europe?

Most electricity companies in Europe buy electricity on a common market place, such as Nord Pool. All power plants that produce electricity and electricity companies that supply electricity to homes and businesses meet there. Based on supply and demand, prices are set for each hour and each area, one day in advance.

How much energy does a household consume in Switzerland?

According to SwissEnergy is consumed by an average 2-person household in Switzerland between 2,000 and 3,000 kWh per year. That's between 167 and 250 kWh per month. The study distinguishes between multi-family flats and single-family houses, with the latter consuming almost a third more.

How does Swissgrid distribute costs?

The distribution of costs by Swissgrid takes place according to usage. Where this is not possible, the costs are passed on to the distribution system operators and the end consumers at the respective grid level on the basis of meter data for services and energy and corresponding tariffs and billing rates.
