The residential electricity price in Vietnam is VND 1,956.000 per kWh or USD 0.074. The electricity price for businesses is VND 1,993.200 kWh or USD 0.076. These retail prices were collected in December 2024 and include the cost of power, distribution and transmission, and all taxes and fees.

As of 2023, the average electricity price in Vietnam is approximately 1,900 VND per kWh, a figure that reflects ongoing adjustments in the energy market. The state-owned utility company, Electricity of Vietnam (EVN), primarily sets these tariffs. The costs can vary based on several factors.

In May 2025, and Vietnam's average electricity price per kWh was set at VND 2,204.07 or about US \$0.084, excluding value-added tax (VAT), per Decision 599/QD-EVN. This was an increase from an average electricity price per kWh of VND 2,103.1159 or about US \$0.0836, excluding value-added tax (VAT).

Vietnam's latest retail electricity pricing framework introduces an average rate ranging from VND 1,826.22 to VND 2,444.09 per kilowatt-hour (roughly up to USD 0.10 per kWh). The new cap provides more structure and transparency for households and businesses while ensuring the energy market can.

Specifically, Vietnam's electricity price TTTT for households using 0-100 kWh/month increased from 1,549 VND/kWh to 1,694 VND/kWh. For households using 101-200 kWh/month, the electricity price increased from 1,858 VND/kWh to 2,025 VND/kWh. Households using 201-400 kWh/month

also have to pay higher.

Effective October 11, 2024, the national utility, EVN, has raised the average retail electricity price by 4.8%. This translates to a new rate of VNĐ2,103.1159 per kilowatt-hour, excluding Value Added Tax, up from the previous VNĐ2,006.79. You might want to ask?

View more Vietnamese households and. How much does a kWh cost in Hanoi?

(Photo: VNA) Hanoi (VNS/VNA) - The bracket of average electricity retail prices has been increased to 1,826.22 VND (0.078 USD) per kWh for the floor price and 2,444.09 VND (0.1 USD) for the ceiling price, according to the Prime Minister's Decision No 02/2023/QĐ-TTg dated on February 3.

What does the new energy framework mean for Vietnam?

This new framework marks a pivotal point in Vietnam's energy evolution. It challenges consumers to think beyond cost and toward long-term sustainability, and it signals that national energy strategy is becoming more responsive, equitable, and forward-looking.
