The residential electricity price in Sweden is SEK 2.430 per kWh or USD 0.253. These retail prices were collected in December 2024 and include the cost of power, distribution and transmission, and all taxes and fees. Compare Sweden with 150 other countries.

The table shows average offered prices for newly signed contracts excluding electricity tax, VAT, and any potential discount or bonus.

As of now, the average electricity price in Sweden is around 65 öre per kWh. However, this price can fluctuate throughout the year. For instance, in the past year, we have seen an increase in electricity prices due to various factors such as increased demand and changes in global energy markets.

Swe.

Lowest spot price today is 10 öre/kWh in area SE1. Highest is 414 öre/kWh in area SE4. How much does it cost right now?

Detailed spot price on electricity hour by hour in Sweden today. Check how much it cost to use electrical appliances with the current electricity prices in Sweden.

Between 2022 and 2023, charges decreased on average by 0.2 per cent for apartment customers and 0.3 per cent for detached house customers using 16 A fuses, while the charges increased by 2.3 per cent for detached house customers using 20 A fuses. This equates to an annual charge change of about SEK.

This may be due to a number of factors, including high taxes of 0,356 SEK/kWh on electricity, the cost of maintaining a modern and reliable

electricity grid, and a focus on sustainability that requires ongoing investment in renewable energy infrastructure. 08/09/2025 day-ahead! All times are in. How much did electricity cost in Sweden in 2023?

In 2023, electricity prices were significantly lower than in 2022 in all Swedish bidding zones. On average, the system price was 64 öre/kWh in 2023, which was a decrease of 55 per cent compared with the previous year's prices. In the four Swedish bidding zones SE1, SE2, SE3 and SE4, the average prices were between 46 and 74 öre/kWh.

Why does electricity cost so much in Sweden?

For instance, during colder months, demand for electricity can surge, leading to higher prices. Similarly, global events such as geopolitical tensions or changes in energy policies can also impact the cost of electricity. As of now, the average electricity price in Sweden is around 65 öre per kWh.

Where are electricity prices regulated in Sweden?

In Sweden, the electricity market is divided into four price areas to better regulate electricity prices. These areas are as follows: Luleå (SE1): Northern parts of Sweden, including Luleå and Norrbotten. Sundsvall (SE2): Central parts of Sweden, including Sundsvall, Gävle, and Dalarna.

Does Sweden have a retail electricity market?

The Swedish retail electricity market has been open to competition since 1996, and prices are set by market participants. There are approximately 5.6 million electricity customers in Sweden, of which approximately 4.7 million are household customers⁸³.

Does Sweden have a deregulated electricity market?

Sweden has had a deregulated electricity market since 1996. The electricity used in Sweden is created both abroad and locally. However, all electricity is distributed throughout the country through a common electricity network. However, electricity sales are quite competitive, with over 120 suppliers to choose from.

Where can I get 100% renewable electricity in Sweden?

Here is a nice offer for 100% renewable electricity with no monthly fee for 9 months, to a value of SEK 405 and a discount per kilowatt hour of 7.5 öre/kWh

including VAT. Vattenfall: As one of Sweden's largest electricity providers, Vattenfall offers various plans to suit different needs.
