The residential electricity price in Zambia is ZMW 0.615 per kWh or USD 0.026. The electricity price for businesses is ZMW 0.854 kWh or USD 0.037. These retail prices were collected in December 2024 and include the cost of power, distribution and transmission, and all taxes and fees. Compare Zambia.

Zambia's GDP, the demand for electricity is expected to increase. Task 3 forecast the demand for electricity (peak demand and energy consumption) in Zambia which is a key input needed for the COSS and in particular the system expansion plan. Peak demand forecasting is particularly important for the.

In April 2023, the Energy Regulation Board (ERB) approved ZESCO Limited's multi-year tariffs for a five (5) year period from 2023 to 2027. While the 2023 retail tariffs were approved effective 1 May 2023, the subsequent tariffs from 2024 to 2027 were conditionally approved subject to the ERB's.

The link for the Government Policy Paper on the findings and recommendations of the Electricity Cost of Service Study. Also included are two annexes: .

Lowering the lifeline tariff: The current residential lifeline band in Zambia is generous compared to regional averages and internationally recommended rates. ZESCO should explore options for reducing the lifeline tariff. To protect low-income households from unexpectedly high electricity bills in.
