

## Average residential ESS price per 8MW in Portugal

## Overview

---

Why is electricity so expensive in Portugal?

Currently, Portugal has one of the highest electricity prices in Europe, with prices for households and small businesses significantly above the EU average. This is partly due to the country's heavy reliance on imported energy, which makes up around 65% of its energy consumption.

How are electricity prices determined in Portugal?

Electricity prices in Portugal are determined by a variety of factors, including the cost of generating electricity, distribution costs, taxes, and government regulations. Currently, Portugal has one of the highest electricity prices in Europe, with prices for households and small businesses significantly above the EU average.

How does Erse compare energy prices in Portugal?

Every six months, ERSE publishes information (PT) comparing energy prices in Portugal with other European Union countries' prices. Annually, ERSE approves tariffs and prices for electricity, valid for a calendar year (January to December). Exceptionally ERSE can approve tariffs and regulated prices for a different timeline.

How is the electricity Levy reduced in Portugal?

The setting is based on the document ' Tariffs applicable to consumption facilities that obtain the status of energy-intensive users '. The electricity levy reduction for energy-intensive users in Portugal, results from the process State Aid SA.111450 (2025/N) – Portugal.

Does Portugal have a green energy plan?

Portugal is building one of the cleanest and smartest electricity systems in Europe. Between surging renewables and flexible tariffs, it's never been easier for households and businesses to go green — and save money doing it. Time

to rethink your energy plan?

.

What determines the price of electricity in Europe?

Supply and demand determine the price of electricity in Europe. If there is a high production of electricity from power plants and demand is low, the price will fall. If, on the other hand, the production of electricity is small and demand is high, prices will increase.
