Will Brazil install a battery energy storage system in 2024?

A study by Brazilian consultancy Greener has indicated that the country installed 269 MWh of energy storage capacity in 2024, growth of 29% from 2023. Demand for battery energy storage system (BESS) components grew 89% in Brazil from 2023 to 2024 and most of the resulting systems are likely to be installed in 2025.

What is driving Brazilian energy storage demand?

An unreliable grid is driving Brazilian energy storage demand. The world is set to have more than 760 GWh of energy storage capacity by 2030, led by Chinese and United States markets dominated by utility-scale systems.

Why is energy storage important in Brazil?

Energy storage in Brazil is entering a period of accelerated growth. Despite the absence of a legal framework, companies are expanding battery production, diversifying models, and preparing storage to play a central role in the energy transition.

How will renewables curtailment affect Brazilian energy investment in 2025?

Renewables curtailment in Brazil in the first half of 2025 is straining investment and highlighting grid and transmission limits, with analysts calling for clearer pricing and storage solutions. Volitalia has reported a 14% cut in its Brazilian PV output in the first half of 2025.

Will Brazil add 13 GW of solar capacity in 2025?

Brazil is expected to add 13 GW of solar capacity in 2025, according to the Brazilian Photovoltaic Solar Energy Association (Absolar), but growth appears to be slowing as curtailment, grid constraints, and regulatory uncertainty challenge new projects. Energy storage in Brazil is entering a period of accelerated growth.

## Can pre-assembled cable harnesses save money?

Time is money – this old saying is especially true when installing solar power plants. Cabling is a critical cost factor that is often underestimated. But this is precisely where there is significant potential for savings: up to 20% of the total costs can be saved by using pre-assembled cable harnesses. How is this possible?
