

Cheapest residential ESS installation offer in Guernsey

Overview

Why should you choose Electric in Guernsey?

In Guernsey today, over 90% of the electricity we use annually comes from low-carbon sources from the European grid. So when you choose electric – whether to heat your home, drive around, or cook your dinner – enjoy peace of mind that your choice is helping Guernsey take a step towards a cleaner, greener future for our island.

What is the cheapest way to heat a home in Guernsey?

Air source heat pumps are the cheapest and cleanest way to heat a home in Guernsey. Electric products produce zero carbon emissions at point of use and items such as electric boilers remain practically 100% efficient over their lifetime.

Does Guernsey have on-island solar energy?

Alan Bates, CEO of Guernsey Electricity Guernsey has already started on-island renewable generation with community-scale solar arrays feeding over 350kW of renewable solar power into the grid. This means that no matter your property size, a portion of your electricity will always come from on-island solar energy. And more will come in future.

How does wind energy work in Guernsey?

Wind energy provides mechanical power using wind turbines that turn electric generators for electrical power. Solar energy is radiant light and heat from the sun harnessed using a range of technologies such as photovoltaics. Air source heat pumps are the cheapest and cleanest way to heat a home in Guernsey.

How can you save money in Guernsey?

Future-proof your property with an electric car charging point or find out about public charging in Guernsey. Anything that's 300% efficient is going to save you a lot of money and a lot of energy. Air source heat pumps have been

talked about a lot in the news and worth your time investigating. Technology is changing our world rapidly.
