

## Cheapest school solar storage installation offer in Ireland

## Overview

---

Should schools install solar panels in Ireland?

Installing solar panels for schools in Ireland delivers more than just financial returns. These systems also serve as educational tools, with included monitoring software that enables staff and students to track how much solar energy is being produced in real time.

Could solar panels save schools money?

The programme, funded by the Climate Action Fund, offers up to 6 kilowatts of roof-mounted solar photovoltaic (PV) panels to each eligible school, translating to approximately 16 solar panels. This could save schools between €1,200 and €1,600 annually on energy costs, while promoting a greener future.

What does the school solar panels grant cover?

The schools solar panels grant covers: Up to 6kW of Solar PV – Installation of approx. 14 solar PV panels as well as all associated electrical components – inverter, isolators, cabling etc., in order to enable safe connection to the school's main distribution board.

What is the solar PV Schools Scheme – schools photovoltaic programme?

The new phase of the schools solar panels grant has been announced and Clean Energy Solar are happy to tender for the installation of Solar PV under the Solar PV Schools Scheme – Schools Photovoltaic Programme. Clean Energy Solar have been installing solar panels and solar PV systems for over 18 years.

What is the Solar for Schools programme?

The Solar for Schools Programme, now entering its final phase, is an initiative funded by the Government's Climate Action Fund and supported by the Department of Education and SEAI (Sustainable Energy Authority of Ireland).

How many solar panels can a school install?

This initiative provides eligible schools with up to 6 kilowatts peak (kWp) of rooftop-mounted solar photovoltaic (PV) installations, equivalent to around 14 solar panels.
