

China energy storage network energy storage conference

Overview

The 2025 CIES will host 23 specialized sessions covering various topics, including the conference's opening ceremony, expert reports, smart distribution networks, new power systems, energy storage integration, international energy storage developments, ancillary services, spot trading.

The 2025 CIES will host 23 specialized sessions covering various topics, including the conference's opening ceremony, expert reports, smart distribution networks, new power systems, energy storage integration, international energy storage developments, ancillary services, spot trading.

Register now to attend ESIE 2026! CNESA is China's 1st and now biggest non-profit industry association dedicated to promoting energy storage industry development. We believe energy storage is the KEY! Industry Research Our project database and customized market and policy reports give you the data.

The 2025 CIES will host 23 specialized sessions covering various topics, including the conference's opening ceremony, expert reports, smart distribution networks, new power systems, energy storage integration, international energy storage developments, ancillary services, spot trading and capacity.

Developed in 2012 by the nation's leading energy storage industry organization, the China Energy Storage Alliance (CNESA), the 13th Energy Storage International Conference and Expo (ESIE) in 2025 is the largest, most professional, and international energy storage show in China, acclaimed as the.

It is the world's leading energy storage event and professional exhibition platform. It is hailed as the barometer of China's energy storage industry development. ESIE was born alongside the development of China's energy storage industry and serves as a key communication and cooperation platform in.

The 6 th International Conference on Energy Storage Materials will be held

from September 21 to 24, 2025, in Shenyang, China. This conference is organized by the Institute of Metal Research, Chinese Academy of Sciences and the Tsinghua Shenzhen International Graduate School, co-organized by.

The China International Energy Storage Conference (CIES) was established in 2011 as a pragmatic and efficient international diversified energy storage exchange and cooperation platform in China. It helps the energy storage industry connect with domestic and foreign markets and capital, promotes the.

Product Model
HJ-ESS-215A(100KW/215KWh)
HJ-ESS-115A(50KW/115KWh)

Dimensions
1600*1280*2200mm
1600*1200*2000mm

Rated Battery Capacity
215KWH/115KWH

Battery Cooling Method
Air Cooled/Liquid Cooled
