

## **Commercial energy storage supplier quotation in Greece 2030**

## Overview

---

How much battery storage will Europe have by 2030?

However, based on current policies, the country looks set to hit only 4.8GW of operational battery storage capacity by 2030, as shown in the above infographic from LCP Delta's STOREtrack market intelligence platform covering energy storage across Europe.

Why is Greece launching a battery storage auction?

Initially a response to the COVID 19 pandemic, the focus has pivoted to support Greece's green energy transition. The storage auctions themselves require further approval under EU State aid rules. The pipeline of prospective battery storage projects now approaches 27GW, with over 500 projects granted a storage license.

Which country is promoting the development of residential energy storage?

In terms of residential energy storage, the Polish government has launched Moj PRD 5.0 subsidy program to encourage the development of residential energy storage. Sweden's installed battery storage capacity is expected to grow from 503 MW in 2023 to 3.8 GW in 2030, with high revenue levels in the ancillary services market driving the market growth.

Why is Greece launching a storage auction in 2021?

Funding was first announced in 2021 as part of the National Recovery and Resilience Plan. Initially a response to the COVID 19 pandemic, the focus has pivoted to support Greece's green energy transition. The storage auctions themselves require further approval under EU State aid rules.

What is Italy's energy storage capacity in 2023?

Italy's installed energy storage capacity in 2023 is 3.9 GW, and is expected to increase to 18 GW by 2030, mainly in the pre-table energy storage and household storage markets.

What is the long-term business case for storage in Greece?

The long term business case for storage will be supported by increasing interconnection, opening ancillary services and Greece's accession to the market coupling platforms, but until then, public funding is required to kickstart investment. Funding was first announced in 2021 as part of the National Recovery and Resilience Plan.
