

Commercial energy storage tender price in Vietnam 2026

Overview

Is Vietnam a good market for energy storage solutions?

Vietnam represents a promising market for German and European small and medium-sized enterprises (SMEs) specialising in energy storage solutions, thanks to their technical expertise and established reputation in RE technologies.

Why is the demand for battery energy storage systems accelerating in Vietnam?

Export-oriented businesses, especially in manu-facturing, are under growing pressure to meet stringent requirements. At the same time, the demand for battery energy storage systems (BESSs) is accelerating, driven by Vietnam's abundant renewable energy (RE) potential, particularly in solar and wind power.

Why do we need battery energy storage systems in Vietnam?

At the same time, the demand for battery energy storage systems (BESSs) is accelerating, driven by Vietnam's abundant renewable energy (RE) potential, particularly in solar and wind power. However, owing to the intermittent nature of these energy sources, storage solutions are required to ensure continuous electricity supply.

How much re capacity does Vietnam have in 2024?

Vietnam's total installed capacity increased to more than 87 GW in 2024. RE capacity has grown significantly from just 0.6 GW in 2018 to 23.3 GW in 2024, accounting for 26.7% of overall system capacity. Output from RE sources accounts for 14% of total system output. FIGURE 7.

How a Bess project is promoting energy storage in Vietnam?

Encouraging domestic enterprises to invest in new technologies will promote the growth of the energy storage indus-try in Vietnam. Investment in BESS

projects in Vietnam is attracting the attention of international partners due to the country's strong potential for RE development.

How can international investors support re & Bess projects in Vietnam?

International capital: International financial institutions, such as the World Bank, the Asian Development Bank (ADB) and green investment funds, are ready to provide financial support for RE and BESS projects in Vietnam. International investors can leverage these funding sources to mitigate financial risks.
