

Danish independent energy storage project bidding information

Overview

On Tuesday August 26 th 2025, the deadline expired for submitting initial bids for the Danish DKK 28.7 billion CO₂ Capture and Storage funding scheme. The tender process is now entering its next phase on the way towards converting the scheme into real CO₂ reductions.

On Tuesday August 26 th 2025, the deadline expired for submitting initial bids for the Danish DKK 28.7 billion CO₂ Capture and Storage funding scheme. The tender process is now entering its next phase on the way towards converting the scheme into real CO₂ reductions.

Technical assessment of how Denmark's greenhouse gas emissions, as well as Denmark's energy consumption and production will evolve over the period up to 2035 based on the assumption of a frozen-policy scenario. Foreign waste conveyors, brokers and dealers must be registered in the Danish National.

The Danish Energy Agency has selected 10 companies from a pool of 16 applicants to compete for DKK 28.7 billion in funding for Carbon Capture and Storage projects. The funding is expected to help reduce Denmark's annual CO₂ emissions by 2.3 million tonnes from 2030. In March, the Danish Energy.

The deadline for submitting initial bids for Denmark's CO₂ capture and storage funding scheme has passed. The Danish Energy Agency is now entering into dialogue with the bidders ahead of the deadline for submitting final bids for the DKK 28.7 billion fund. On Tuesday August 26 th 2025, the deadline.

The Danish Energy Agency and Ørsted Bioenergy & Thermal Power A/S have finalized negotiations of a contract concerning state aid for Denmark's first project with full-scale capture, transport, and storage of CO₂ (CCS). The project will capture and store 430,000 tonnes of CO₂ annually from 2026. The.

The competitive bidding process for the new CCS Fund, providing funds for approximately DKK 28 billion over 16 years, is now being opened with the publication of the public consultation material. Capture and storage of CO₂ is considered crucial for meeting Denmark's climate targets. The Danish.

The CCS fund for carbon capture and storage is DKK 28.7 billion, and a maximum of 10 companies can participate. To apply for funding, applicants must first be prequalified. 16 companies have applied, and the Danish Energy Agency will now assess the applications in order to select 10 companies. When will the Danish Energy Agency publish the tender material?

The Danish Energy Agency expects to publish the tender material in October 2024 and award contracts in April 2026 following a prequalification and negotiation round. See the public consultation material on the Danish Energy Agency's website.

When does the Danish Energy Agency's CCS consultation start?

The Danish Energy Agency's consultation will run until August 20, 2024, giving an opportunity for everyone, including potential bidders, to provide feedback on the CCS Fund. The Danish Energy Agency expects to publish the tender material in October 2024 and award contracts in April 2026 following a prequalification and negotiation round.

What does the Danish Energy Agency do?

Heat in the radiator. Light in the streetlights. All of this requires energy. The Danish Energy Agency takes responsibility for ensuring a secure, sustainable, and affordable energy supply accessible to all. Additionally, the Danish Energy Agency assumes responsibility for the necessary large-scale investments in new green energy.

Which companies were pre-qualified to participate in the Danish energy tender?

Three companies, I/S Vestforbrænding, Ørsted Bioenergy & Thermal Power A/S, and Aalborg Portland, were pre-qualified to participate in the tender, and all the three of them submitted indicative offers and participated in negotiations with the Danish Energy Agency.
