

## Energy storage coil inductor manufacturer

## Overview

---

How does a custom coil inductor work?

In the process, the inductor stores energy in the induced magnetic field to slow or smooth sudden spikes in current and then transfers this energy to the circuit. Custom Coils provides reliable custom inductors for numerous applications, including: Depending on the application, we offer four main types of inductors:.

What are Coilcraft unshielded power inductors?

Coilcraft unshielded power inductors with open magnetic constructions provide high saturation current ratings. These are used for general-purpose power choke and power supply applications. Coilcraft coupled inductors / transformers are magnetically shielded and feature low DC resistance, and tight coupling in 1:1, 1:N, and 1:1:1 turns ratios.

What are Coilcraft power inductors?

Coilcraft power inductors are offered in various structure types, sizes and inductance values. RF inductors: ceramic-core, ferrite-core, air core, conical, broadband bias chokes and RFID coils. Power conversion, capacitor charging, gate drive, PoE, current sensing, ultrasonic sensing and data-line isolation.

What types of inductors do custom coils offer?

Custom Coils provides reliable custom inductors for numerous applications, including: Depending on the application, we offer four main types of inductors: Iron Core Inductor: These inductor cores consist of iron, and they allow for high inductance values and high power.

What is a Coilcraft high-voltage power inductor?

Perfect for Class-D applications up to 100 Watts. Coilcraft high-voltage power inductors support the need for voltage-rated inductors in applications such as high-voltage DC-DC and AC-DC power supplies, industrial automation and

control systems, home automation, appliances, and automotive, including electric vehicles (EVs).

Who is custom coils?

Since our establishment in 1978, Custom Coils has served as a leading manufacturer of high-quality inductor coils, meeting even the most challenging requirements for our customers.
