

## Energy storage development and reform commission registration iraq

## Overview

---

How can the Ministry of Environment support Iraq's environmental policies?

As the Ministry of Environment develops the capabilities to monitor and enforce the strong environmental policies that Iraq has adopted, it also will need to develop mechanisms for coordination with other government agencies - in particular the Ministries of Oil, Electricity, Industry and Minerals, and Water Resources.

Who is responsible for upstream oil and gas development in Iraq?

Operational responsibility for upstream oil and gas development would be assigned to a new corporatized entity, the Iraqi National Oil Company (INOC). INOC would be responsible for carrying out the policies of the FOGC under regulations established by the MoO.

Why is Iraq using a TSC mechanism?

The federal government has used a TSC mechanism in order to comply with Constitutional restrictions against transferring ownership of Iraq's petroleum resources to third parties. The Iraq Federal Region of Kurdistan (IFRK), meanwhile, has taken a different approach to oil field development.

How can industry data software help Iraq?

Database and software. With consistent and detailed reporting, state-of-the-art industry data software can be deployed to store, manage, and analyze Iraq's resource data. These elements together can provide comprehensive, consistent, and current reserve information.
