

## Energy storage explosion in italy

## Overview

---

On April 9, 2024, Italy's largest pumped-storage hydropower plant – the Bargi facility near Bologna – became the scene of a devastating explosion during upgrade works.

On April 9, 2024, Italy's largest pumped-storage hydropower plant – the Bargi facility near Bologna – became the scene of a devastating explosion during upgrade works.

An explosion at a fuel depot in the central Italian region of Tuscany on Monday killed at least two people and injured 14 others, authorities said. The blast collapsed a building with offices, where three people were believed missing, regional environmental official Monia Monni told SKY TG24. The.

On April 9, 2024, Italy's largest pumped-storage hydropower plant – the Bargi facility near Bologna – became the scene of a devastating explosion during upgrade works. Seven workers lost their lives, five were injured, and the world got a brutal reminder: “Energy storage isn’t just about megawatts;.

With reference to the serious accident that occurred at the Bargi power plant near Bologna, Italy, Enel Green Power once again expresses its deepest condolences and closeness to all the victims and their families. The company will continue to fully collaborate with the relevant authorities to.
