Energy storage industry company sector classification standards

Overview

What is Global Industry Classification Standard (GICs®)?

This Methodology book primarily provides details on the guidelines used by both MSCI and S&P Dow Jones Indices to assign Global Industry Classification Standard (GICS®) to companies that have issued equity securities. Section 1 introduces GICS and its philosophy and objectives. Section 2 details the eligibility for GICS classification.

What is the Global Industry Classification Standard?

The Global Industry Classification Standard is designed to be market demand-oriented in its analysis and classification of companies. For example, drawing the line between goods and services is becoming increasingly arbitrary as they are now commonly sold together.

What is Industry Classification?

It is designed to respond to the global financial community’s need for a global, accurate, complete and widely accepted approach to defining industries and classifying securities by industry. Its universal approach to industry classification aims to improve transparency and efficiency in the investment process.

How is a company's sics® classification determined?

A company’s SICS® classification is determined by overlaying its sustainability framework to other industry taxonomies. This tool allows you to determine the primary SICS ® industry for tens of thousands of companies listed around the world, enabling investors and corporations to determine which SASB Standard is applicable to that company.

What is a Sustainable Industry Classification system ®?

In order to group like companies based on their sustainability-related risks and opportunities, a new industry classification was needed. The Sustainable

Industry Classification System ® (SICS ®) solves that problem.

What is a GICs® classification system?

GICS® is a four-tiered, hierarchical industry classification system. The four tiers are: Sectors, Industry Groups, Industries and Sub-Industries. All definitions are standardized and applied to companies globally. Each company is assigned a single GICS® classification in each of the four tiers, according to its principal business activity.
