

Energy storage inverter intellectual property litigation

Overview

Can trade secreted energy facilities be reverse engineered?

Alternatively, trade secreted methods in an energy facility that are not publicly disclosed can provide a head start and/or operational advantages in perpetuity, if not easily reverse engineered.

Why is intellectual property protection important for energy processes?

As energy processes solutions are improved through innovation, intellectual property (IP) protection and risk mitigation will be vital for successful commercialization and return on investment for these endeavors.

What IP Considerations should your company consider when investing in energy?

Below are five critical IP considerations for your company's IP team to consider when investing in and leading the energy transition. Investments in new technology development within your organization must be complimented by a strong innovation and IP culture that encourages the invention, disclosure, documentation and protection of new ideas.

Why are Chinese battery companies suing EV manufacturers?

The lawsuits Preston said, involve high profile Chinese battery manufacturers like COSMX, ATL, and CATL (which is particularly important for the EV market). That means Chinese companies are to a degree competing among themselves to attain the best market position in the U.S. — in part by defending their IP.

Is energy storage a linchpin of progress?

Energy storage has emerged as a linchpin of progress for supporting global energy transformation. Our team practices at the forefront of development by providing legal solutions that can catalyze innovation.

What types of energy storage solutions do we offer?

Our team advises on: We offer legal solutions across a range of energy storage technologies, such as flow and lithium-ion batteries and pumped hydro storage systems. We advise on behind-the-meter and in-front-of-the-meter solutions and standalone storage and hybrid systems coupled with solar, wind, or gas-fired generation.

Energy storage inverter intellectual property litigation

Weview Energy Storage Technology (u.s.a.), Llc C/o Fox

Weview Energy Storage Technology (u.s.a.), Llc C/o Fox Rothschild LLP litigation, intellectual property, attorneys, sec filings, and other public records.

Tesla Powerwall Accused of Ripping Off Patented Inverter Design

Billionaire Elon Musk's Tesla Inc. was accused of infringing a Texas inventor's patented battery-storage technology with its Powerwall and Powerwall+ home backup power systems in a new ...

Chinese Battery Firms Face Two Challenges: IP ...

The two superpowers' progress (or lack thereof) on renewable energy and other important innovations is partly reflective of the state of each ...

Energy Storage , Practices , Holland & Knight

We have the knowledge and resources to handle all aspects of energy storage projects and

transactions, including mergers and acquisitions (M& A), project ...
