

Enterprise ESS system project financing options in Spain 2026

Overview

How will the European Commission support large-scale energy storage in Spain?

The European Commission on Monday approved a new aid scheme for the deployment of large-scale electricity storage in Spain. Subsidies will be available for standalone energy storage sites, projects installed alongside renewable energy facilities, and storage planned as part of thermal power plants.

Can Spain deploy large-scale energy storage with co-financing of 85%?

The European Commission on Monday greenlit a new aid scheme to enable Spain to deploy large-scale energy storage with co-financing of up to 85%. The European Commission on Monday approved a new aid scheme for the deployment of large-scale electricity storage in Spain.

Will Spain start a new energy storage scheme?

The Ministry of the Environment of Spain has launched its latest financial support scheme for energy storage, aiming to kickstart 2.5-3.5GW.

Will Spain get 20GW of new energy storage by 2030?

Spain is targeting 20GW of new energy storage by 2030. MITECO also launched a similarly-sized grant scheme specifically for co-located or hybridised energy storage projects, for which proposals were due in March 2023. Enel Green Power submitted two projects during the first quarter which fit the criteria, totalling 60MWh and 38MWh respectively.

How much money will Spain spend on energy projects?

Nearly half of the financial support will be allocated to the southern region of Andalusia, with €311 million, followed by the northwestern region of Galicia with €86 million and the central region of Castilla-La Mancha with €80 million. The projects will make the energy system in Spain more flexible, robust, and

resilient, MITECO said.

Does Spain support energy storage?

Spain already backs energy storage with more than €600 million of NextGenEU funding which was allocated as part of Spain's, post-Covid Recovery, Transformation, and Resilience Plan. From pv magazine España.
