

Expected ROI of residential ESS project in France 2025

Overview

What is the France real estate market outlook 2025?

As every year, CBRE shares its key findings from the new France Real Estate Market Outlook 2025 report, a valuable resource to inform your strategic decisions. French growth will remain weak in 2025, in view of the obstacles to a full recovery of demand, in particular private consumption.

Will France's real estate market recover in 2025?

The National Real Estate Federation of France (FNAIM) reported that as of June 1, 2025, the average residential property price nationwide stood at EUR 2,953 (USD 3,400) per square meter, down 0.6% from a year earlier. Looking ahead, FNAIM expects a modest recovery, projecting a 1% year-on-year price increase in the second half of 2025.

What will the French property market look like in 2025?

The French property market in 2025 is expected to present a dynamic landscape influenced by various economic, social, and environmental factors. Building on insights from recent market analyses and trends, this article aims to provide a comprehensive and detailed outlook on what prospective buyers and investors can anticipate in the coming year.

Are eco-friendly homes reshaping the French real estate market?

As a result, the French real estate market is seeing a transformation, with eco-friendly homes becoming a significant part of new developments. This change is reshaping the landscape of residential construction in France, aligning with global trends towards sustainability. Sources: L'Info Durable, INSEE, CAE Groupe.

Will European real estate market continue in 2025?

RWAY BUT GRADUAL IN EUROPE With an estimated €192 billion invested in the European real estate market, 2024 ended on a positive note, with investment

volumes up 15% on the previous year. This positive European momentum is expected to continue in 2025, with a.

What challenges will the French rental market face in 2025?

The challenges facing the French rental market in 2025 are significant. Restrictions on renting energy-inefficient properties (the infamous “passoires thermiques”), the end of the Pinel tax incentive scheme, and continuing difficulties in accessing credit, put pressure on both supply and demand.
