

Expected ROI of residential ESS project in Tunisia 2026

Overview

What is the growth rate of the Tunisian construction industry?

The Tunisian construction industry is expected to record an annual average growth rate of 3.1% from 2026 to 2029, supported by the investments in the transport, renewable energy, and hydrogen projects.

Will the construction industry expand in Tunisia in 2025?

GlobalData expects the Tunisian construction industry to expand by 1.2% in real terms in 2025. This will be supported by increased flows of foreign direct investment (FDI), alongside greater investments in infrastructure and energy projects.

How many projects are planned in Tunisia?

About \$27bn of major projects are planned or underway in Tunisia. Of these, about \$8.3bn of projects are under construction, with \$18.6bn planned. The construction and power sectors account for about 64.2 per cent of all projects that are planned or underway in Tunisia.

How did the 2011 Tunisian Revolution affect the project market?

The 2011 Tunisian Revolution, led to a period of civil unrest and turbulence that saw Tunisia's projects market sow sharply in 2011 and 2012 as political upheaval led to delays in the commencement and implementation of various projects.

How big is Tunisia's projects market?

Averaging about \$700m a year in contract awards since 2008, Tunisia is one of the region's smallest projects markets. But after a surge in activity in 2017 and with about \$18.6bn of planned projects, including some major power and transport schemes, Tunisia's projects market is set for healthy growth.

How much is a project contract worth in Tunisia?

About \$6.9bn worth of projects contracts have been awarded in Tunisia since 2008, an average of about \$697m of awards a year. The value of annual project contract awards peaked in 2014 at \$1.3bn, when it was boosted by the award of the main contracts on the Nawara Gas Field Development: Gas Pipeline & Central Processing Facility (CPF).
