SEOUL, July 21 (AJP) - South Korea is poised to award its first large-scale energy storage system (ESS) tender this week, a 1 trillion won (approximately \$720 million) project that has drawn fierce competition among the country's top battery makers. The outcome could reshape the strategic.

South Korea's Ministry of Trade, Industry and Energy (MOTIE) has officially launched a tender for 1 GW of new solar capacity, releasing updated procurement details aimed at driving the nation's renewable energy growth while promoting sustainability in manufacturing. The tender sets a ceiling price.

South Korea's trade ministry announced Thursday it will invite bids from private companies to build and operate a large energy storage system (ESS) totaling 540 megawatts (MW) — enough to power about 1 million apartments for an hour. The project aims to help reduce electricity waste from renewable.
