

Floor standing battery project financing options in Greece 2026

Overview

Why is Greece launching a battery storage auction?

Initially a response to the COVID 19 pandemic, the focus has pivoted to support Greece's green energy transition. The storage auctions themselves require further approval under EU State aid rules. The pipeline of prospective battery storage projects now approaches 27GW, with over 500 projects granted a storage license.

Does Greece have a battery storage pipeline?

Greece has emerged as one of the countries with the largest pipeline of battery storage projects, but as yet there has been little activity on the ground. This is changing as the long-awaited storage subsidy auctions have started, with the first projects being awarded support for both investment and operating costs.

Why is Greece launching a storage auction in 2021?

Funding was first announced in 2021 as part of the National Recovery and Resilience Plan. Initially a response to the COVID 19 pandemic, the focus has pivoted to support Greece's green energy transition. The storage auctions themselves require further approval under EU State aid rules.

What is the long-term business case for storage in Greece?

The long term business case for storage will be supported by increasing interconnection, opening ancillary services and Greece's accession to the market coupling platforms, but until then, public funding is required to kickstart investment. Funding was first announced in 2021 as part of the National Recovery and Resilience Plan.

How many battery storage projects are being auctioned this year?

The pipeline of prospective battery storage projects now approaches 27GW, with over 500 projects granted a storage license. With support for 1GW of

battery capacity to be auctioned 3 tranches this year, the results for the first auction of 400MW have been announced with a few winners, but lots of losers.

Which Greek companies did not get funding?

While funding was awarded to established Greek companies, notable losers included Eunice and TERN Energy. Significant international entities also missed out, with Iberdrola submitting 2 projects totalling 90MW, and Aquila Capital's 30MW bid. This still leaves over 23GW that did not enter the auction.

Floor standing battery project financing options in Greece 2026

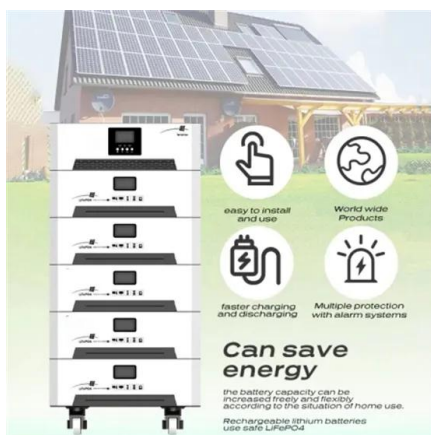

Battery storage tax credit opportunities and ...

Revised February 13, 2023 Below are slides the authors prepared about tax credit opportunities and development challenges for battery storage. Tax benefits available after passage of the IRA: What is storage? ...

Virginia's Largest Battery Storage Project, Prospect Power, ...

Swift Current Energy has officially closed US\$242 million in project financing for its Prospect Power Storage facility. This marks a major milestone in the utility-scale storage ...

Project Financing and Energy Storage: Risks and ...

The general principles of project finance that apply to the financing of solar and wind projects also apply to energy storage projects. Since the majority of solar projects currently under construction include a storage ...

Greece opens EUR-153.7m subsidy scheme for batteries

The Greek government has opened for applications a programme that will subsidise businesses to install energy storage systems,

either as part of new solar projects or ...

Faria Secures EUR28M Loan for Greek Battery Project

CEO Maria Papadopoulou highlighted the significance of Greek lenders supporting flexibility infrastructure. Construction will begin soon, managed by a local ...

EU-Funded Projects - Batteries Europe

A solution is needed to extend battery usability and minimise environmental impact. In this context, the EU-funded Battery2Life project aims to transform used batteries into valuable ...

Commercial and Industrial ESS

KLC Advises on EUR 41 Million Financing for Battery Project

The National Bank of Greece (NBG) plays a pivotal role in the project, which has received total financing of EUR 41 million. The investment is supported by an NBG facility, ...

Faria Renewables secures financing for 49.9 MW battery project in Greece

A BESS project selected last year in Greece's second battery storage auction is now a step closer to materialization, Faria Renewables revealed. The company signed a loan ...

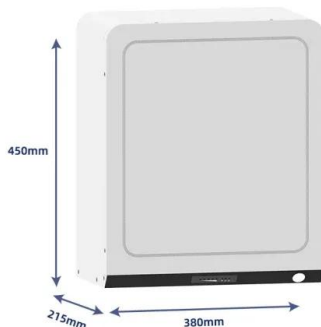

BESS revenue models: tolling, floor & fully merchant

An overview of the different BESS revenue strategies that help secure financing (fully merchant, floor pricing, tolling), including examples.

Greece: 27GW of battery storage projects gear up for ...

The database tracks the deployment of storage across 28 countries, detailing the companies involved in each project and their role, as well as project technologies, milestones, segments and technical characteristics.

Funding opportunities

European funding opportunities Horizon Europe is the EU's key funding programme for research and innovation with a budget of EUR95.5 billion. The calls in the link below come from different ...

Greek developer secures loan for 134 MWh battery ...

Greek renewable energy company Faria Renewables is looking to the financial sector for backing to build its planned battery energy storage system (BESS) with a power output of 49.9 MW and a storage capacity of ...

Scatec and AMEA Power Secure Financing for Major Battery ...

The financial closure of two major large-scale projects in Egypt signifies a promising advance for the country's emerging energy storage sector. Recently, developers ...

Scatec Secures Financing for 1.1GW Solar and Battery Storage Project ...

Scatec plans to reach the commercial operational date for the Obelisk solar project in H1 2026. The project will happen over two exciting phases. The initial phase will ...

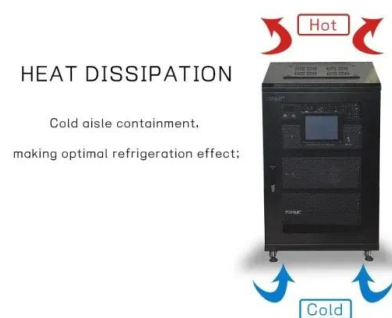

SNAP's battery storage projects gain financial backing ...

At a ceremonial signing on February 17, 2025, BPI and Chinabank formalized their commitment to fund the Magat BESS Phase 2, while BPI and BDO agreed to finance the Binga BESS project. The BESS projects, ...

Debt: Funding Battery Storage Projects

Synopsis How do we encourage more debt into the energy storage sector? Is there a sufficient debt financing market for new developers moving into energy storage? How ...

Statera obtains debt funding for 600MWh UK BESS

The battery energy storage system (BESS) and flexible generation projects are expected to begin operations in late 2026. Credit: Statera Energy. UK-based energy company ...
