

Floor standing battery supplier quotation in Greece 2026

Overview

Why is Greece launching a battery storage auction?

Initially a response to the COVID 19 pandemic, the focus has pivoted to support Greece's green energy transition. The storage auctions themselves require further approval under EU State aid rules. The pipeline of prospective battery storage projects now approaches 27GW, with over 500 projects granted a storage license.

Does Greece have a battery storage pipeline?

Greece has emerged as one of the countries with the largest pipeline of battery storage projects, but as yet there has been little activity on the ground. This is changing as the long-awaited storage subsidy auctions have started, with the first projects being awarded support for both investment and operating costs.

What is the long-term business case for storage in Greece?

The long term business case for storage will be supported by increasing interconnection, opening ancillary services and Greece's accession to the market coupling platforms, but until then, public funding is required to kickstart investment. Funding was first announced in 2021 as part of the National Recovery and Resilience Plan.

Why is Greece launching a storage auction in 2021?

Funding was first announced in 2021 as part of the National Recovery and Resilience Plan. Initially a response to the COVID 19 pandemic, the focus has pivoted to support Greece's green energy transition. The storage auctions themselves require further approval under EU State aid rules.

How many battery storage projects are being auctioned this year?

The pipeline of prospective battery storage projects now approaches 27GW, with over 500 projects granted a storage license. With support for 1GW of

battery capacity to be auctioned 3 tranches this year, the results for the first auction of 400MW have been announced with a few winners, but lots of losers.
