

## Fontaine mobile energy storage device

## Overview

---

What are fixed storage and energy transfer devices?

The Fixed Storage and Energy Transfer Device are devices used to power Energy Transfer Terminals in Fontaine in Genshin Impact 4.1. Learn about Fixed Storage and Energy Transfer Devices, as well as how to use them! What are the Fixed Storage and Energy Transfer Devices?

.

Where can I find fixed storage devices & energy transfer devices?

Fixed Storage Devices and Energy Transfer Devices are an exploration mechanic in Fontaine currently found in the Liffey Region and Fontaine Research Institute of Kinetic Energy Engineering Region. They can be found both underwater and on land. Fixed Storage Devices are stationary and Energy Transfer Devices can be moved by the player.

Where can I find energy transfer devices?

They can be found both underwater and on land. Fixed Storage Devices are stationary and Energy Transfer Devices can be moved by the player. Devices that do not contain any energy are red and devices with energy are blue. Energy Transfer Terminals can be used to transfer energy from one device to another.

What are the development directions for mobile energy storage technologies?

Development directions in mobile energy storage technologies are envisioned. Carbon neutrality calls for renewable energies, and the efficient use of renewable energies requires energy storage mediums that enable the storage of excess energy and reuse after spatiotemporal reallocation.

How do you get portable energy storage?

Descend down the staircase and defeat the Fatui. Defeating them will get you

access to portable energy storage, which you can use to reach the upper level. Utilize the terminal once more to absorb the energy from the active energy device and transfer it to the portable energy storage.

How do I transfer energy from different storage devices?

You can access the Transfer Terminal's viewfinder to collect and transfer energy from different storage devices. If there is another Transfer Terminal within your viewfinder, you can switch to that other Transfer Terminal's view by aiming your crosshairs at said terminal and pressing it.
