

Goldwind energy storage technology company factory operation information

Overview

What does Goldwind do?

Goldwind provides zero-carbon solutions for new power systems, optimizing and rebuilding the energy links between the power source, grid, load and storage by integrating clean energy and digitalization, resulting in a smarter, more reliable, affordable, and sustainable Internet of Energy (IoE).

How many employees does Goldwind have?

With offices and facilities throughout Asia, Europe and the Americas, Goldwind employs over 10,000 staff and, combined, has an installed capacity base reaching almost 140 gigawatts (GW) across six continents. Goldwind is principally engaged in research, development, manufacturing and marketing of large-sized wind turbine generator sets.

Does Goldwind own a wind farm?

Goldwind Americas also manages and operates the company's Panamanian team, which oversees the Penonome I and Penonome II wind farms totaling 270 MW, and the Chilean service operations team. Goldwind Australia is the Australian subsidiary that owns and operates both wind and solar energy farms in Australia.

Who makes Goldwind wind turbines?

In 1998 Goldwind started the production of Jacobs 43/600 and Jacobs 48/600 turbines. This German wind turbine with conventional geared drive train is similar to HSW600 and was designed by aerodyn Energiesysteme GmbH. Later the design has been geared to Jacobs 48/750 and Goldwind by the German engineering consultancy aerodyn.

Where is Goldwind located?

In the summer of 2018 we moved to our new office located in Hinnerup in the northern part of Aarhus from where we can continue to grow and develop our

business focusing on supporting Goldwind's R&D department in Beijing with the development of future wind turbines and associated technologies.

Is Goldwind China's most innovative company?

Through the implementation and investment in industry-leading turbine technology, water treatment solutions and other green energy technological ventures, Goldwind has been hailed as one of China's most innovative companies. Goldwind now operates on 6 continents, has more than 8,000 employees, and more than 44GW of installed wind capacity.
