

Government procurement price of business energy storage in Switzerland

Overview

How is public procurement regulated in Switzerland?

The Swiss Confederation and the 26 cantons each have the power to enact their own public procurement legislation for public procurements by entities on a national and cantonal/municipal level within the framework provided by international and national law. Thus, public procurement in Switzerland is regulated on three levels:.

What are the different types of procurement procedures in Switzerland?

Swiss public procurement law knows four different procurement types of procedures: Open procedure („offenes Verfahren“): All interested providers/suppliers may submit an offer after the planned procurement has been published (Art. 18 FAPP/IAPP).

Can a public procurement contract be cancelled or terminated in Switzerland?

It is disputed in Switzerland whether a contract which has been concluded in violation of public procurement law (i) is void or must be cancelled or terminated or (ii) whether the review body may only declare its invalidity and award damages (Art. 58 III FAPP/IAPP; Art. 9 III FAIM).

Where can I find e-procurement notices in Switzerland?

Most of the public procurement notices and many of the contract award notices at federal, cantonal and municipal level are published online on Apart from that, e-procurement is still not very well developed in Switzerland.

What is a public procurement in the international treaty area?

Public procurements falling within the ambit of the international treaties are generally referred to as public procurements in the international treaty area. National and cantonal law contains specific rules for these public procurements which implement Switzerland's obligations under these treaties.
