All Government Tender Notices, Federal Contracts, Municipality Bids RFPs.

The legal basis for public procurement in Mexico is Article 134 of the Federal

Constitution, which provides the principles pursuant to which public procurement is governed. Despite the complex public procurement scenario in different sectors, the most common public procurement can be divided.

Mexico's government procurement, a behemoth representing 25% of its total spending, thrives on transparency and competition. Guided by the Constitution and laws like LAASSP, it operates through CompraNet, an online platform showcasing all bids. Public tenders are the norm, ensuring fair play and. What is the government procurement market like in Mexico?

Mexico's government procurement market is substantial, with an estimated annual value of over USD 200 billion. This represents a significant opportunity for businesses seeking to supply goods and services to the Mexican government. Bidding for tenders in Mexico is extremely lucrative for companies of all sizes.

How are GOM procurement and contracts governed in Mexico?

GOM procurement and contracts are governed by Article 134 of the Mexican Constitution, the Public Procurement Act (Ley de Adquisiciones, Arrendamientos y Servicios del Sector Público or LAASSP), and the Public Works Act (Ley de Obras Públicas y Servicios Relacionados con las Mismas or LOPSRM).

How does corruption affect procurement in Mexico?

Corruption exists in many forms in Mexico and has the potential to influence tenders. The use of exceptions such as shortened procurement windows and sole source awards are common. Federal-level procurements generally have better oversight and anti-corruption safeguards than at the sub-national level.
