

Government procurement price of wind solar storage in Argentina

Overview

The energy secretariat set the ceiling prices as follows: USD 115 (EUR 107.02) per MWh for wind power with storage, USD 146/MWh for biomass-based power, USD 190/MWh for organic biogas, USD 160/MWh for landfill biogas and USD 130/MWh for small hydro.

The energy secretariat set the ceiling prices as follows: USD 115 (EUR 107.02) per MWh for wind power with storage, USD 146/MWh for biomass-based power, USD 190/MWh for organic biogas, USD 160/MWh for landfill biogas and USD 130/MWh for small hydro.

Argentina's government last week launched a renewable energy auction, RenMDI, seeking 620 MW from different technologies to diversify the nation's power mix and replace costly forced generation, typically provided by thermal and hydroelectric plants. Work on the Cauchari solar project in Argentina.

The government's estimated investment for the projects is around \$500 million USD, with a required completion timeline of 12 to 18 months. The tender will pay a fixed \$10/MW of electricity supplied and energy storage capacity bids must have a maximum cost of \$15,000/MW/month. Successful bids will be.

Argentina's first energy storage tender drew 1.347 GW of bids from 15 companies proposing 27 projects, exceeding the 500 MW target and representing more than \$1 billion in pledged investment. From ESS News The Argentinian government opened the bids this week for its AlmaGBA tender process. The.
