

Household energy storage tender price in Bulgaria 2025

Overview

The program is set to cover up to 50% of costs, but no more than EUR 190,000 per MWh, excluding value-added tax. The public call would be for individual projects for 10 MW to 300 MW in operating power and storage duration of at least two hours, translating to 20 MWh to 600 MWh in.

The program is set to cover up to 50% of costs, but no more than EUR 190,000 per MWh, excluding value-added tax. The public call would be for individual projects for 10 MW to 300 MW in operating power and storage duration of at least two hours, translating to 20 MWh to 600 MWh in.

Bulgaria's standalone energy storage tender, which aimed to procure at least 3 GWh of cumulative usable capacity, ultimately awarded more than three times that amount. Bulgaria will finance 82 standalone renewable energy storage projects worth over 1.15 billion leva (\$675 million) under its.

Bulgaria is taking bold steps toward a greener energy future, having recently wrapped up its most ambitious energy storage tender to date. With nearly 10 GWh of standalone energy storage capacity awarded—more than triple the initial target—the country is making significant headway in reinforcing.

The Ministry of Energy in Sofia plans to launch a tender on September 2 for standalone energy storage systems. It issued the draft framework for public debate, which lasts one month. The government said it prepared EUR 589 million in subsidies for the construction and commissioning of a national.

Bulgaria has committed over 1.15 billion leva (\$675 million) to support 82 standalone renewable energy storage projects through its EU-funded RESTORE procurement initiative, as announced by the Ministry of Energy on April 17. These projects will deliver a combined usable energy storage capacity of.

Some 151 project bids for support were submitted for the scheme, which will provide up to 1.154 billion BGN (€590 million/US\$540 million) for up to 50% of the construction costs of 3.1GWh of standalone energy storage projects. The bids meanwhile total five billion BGN of requests for financial.

Bulgaria will finance 82 standalone battery storage projects worth over 1.15 billion levs (\$675 million) under its EU-funded procurement exercise named RESTORE. The selected projects will deliver a total usable battery energy storage system (BESS) capacity of 9,712.89 MWh, the Ministry of Energy said. How many renewables & energy storage projects have been supported in Bulgaria?

It follows the results from a similar scheme in Bulgaria which provided financial support for renewables and energy storage projects, which saw some 3,095MW of renewables and 1,176MWh of projects win support, announced last month.

Which energy storage technologies are available in Bulgaria?

Bulgaria's energy storage tender is open to all technologies, but most projects are likely to have proposed lithium-ion battery energy storage systems (BESS) and Malinov mentioned battery projects in his comment.

Why is energy storage growing in Bulgaria?

Energy storage in Bulgaria is expanding rapidly as the government awards nearly 10 GWh of capacity to 82 projects, boosting renewable energy reliability and grid stability.

Will battery projects improve energy security in Bulgaria?

The successful implementation of battery projects will significantly contribute to the security of the energy system in Bulgaria and the region." The scheme was opened by the Ministry in May, and approved by the EU last month.

How much money does the NRRP provide for energy projects in Bulgaria?

Under the RESTORE initiative, launched through Bulgaria's National Recovery and Resilience Plan (NRRP), the Ministry of Energy has selected 82 projects that will collectively receive BGN 1.15 billion (approximately \$675 million) in public funding.

How will the selected storage systems be distributed in Bulgaria?

The selected storage systems will be geographically distributed across Bulgaria and connected either to the national transmission grid or local distribution networks. All awarded projects must be operational by March 2026.

Household energy storage tender price in Bulgaria 2025

Bulgaria grants EUR 587 million to 82 battery storage projects

Developers of 82 standalone battery projects in Bulgaria, for an overall 9.71 GWh in capacity, got approval for EUR 587 million in subsidies.

Bulgaria finalises EUR600m funding for 10GWh of energy ...

Bulgaria has selected 82 winning energy storage projects for a share of BGN 1.15 billion (EUR588 million) in financial support.

Bulgaria gets 151 proposals in renewable energy ...

December 9 (SeeNews) - Bulgaria has received 151 project proposals worth a total of nearly 5 billion leva (\$2.7 billion/2.6 billion euro) in a tender to build renewable energy storage infrastructure, the energy ministry said.

Bulgaria opens EU-funded 3000 MWh stand-alone battery storage ...

On 21 August 2024, the Bulgarian Ministry of Energy opened a tender procedure for National infrastructure for storage of renewable energy (RESTORE) for granting stand-alone battery ...

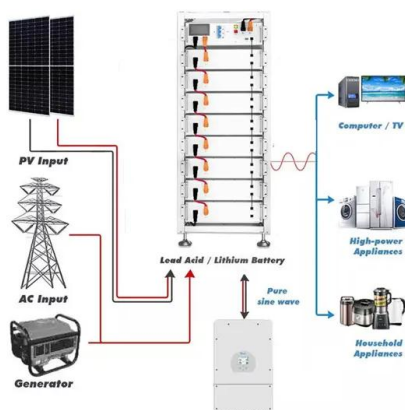

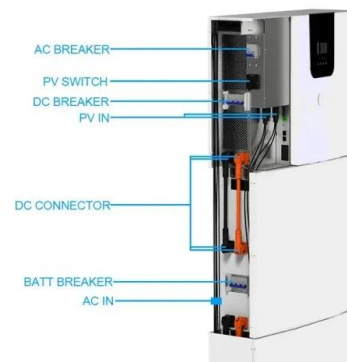

Bulgarian Tender Awards Nearly 10 GWh of Energy Storage

These projects will deliver a combined usable energy storage capacity of 9,712.89 MWh, exceeding the program's initial target of 3,000 MWh by more than threefold. ...

Bulgarian tender awards nearly 10 GWh of energy storage

Bulgaria's standalone energy storage tender, which aimed to procure at least 3 GWh of cumulative usable capacity, ultimately awarded more than three times that amount.

Huge interest in Bulgaria's energy storage tender

The Bulgarian Ministry of Energy announced that the tender for the development of at least 3,000 MWh of energy storage systems has attracted 151 proposals totaling nearly 2.56 billion euros.

Bulgaria's Battery Storage Market

Currently, Bulgaria's electricity market offers an opportunity for EUR110 (\$122) per MWh profit on battery energy storage with two hours of discharge capacity using energy arbitrage. Rystad Energy 's analysis estimates battery ...

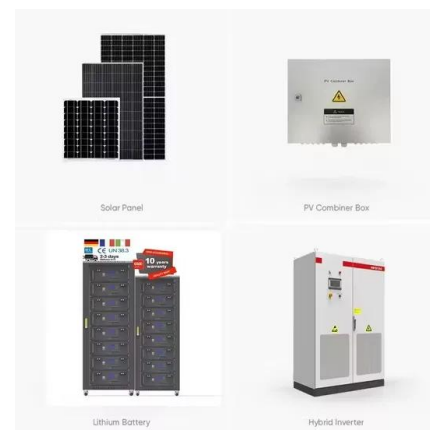

Bulgaria outlines EU-funded tender for standalone ...

The draft for the RESTORE tender for support to energy storage facilities in the electricity transmission system was issued for public consultation.

Huge interest in Bulgaria's energy storage tender

The Bulgarian Ministry of Energy announced that the tender for the development of at least 3,000 MWh of energy storage systems has attracted 151 proposals ...

Home battery storage cost Bulgaria

Currently, Bulgaria's electricity market offers an opportunity for EUR110 (\$122) per MWh profit on battery energy storage with two hours of discharge capacity using energy arbitrage. Rystad ...

Bulgaria's battery storage market gears up

Bulgaria has installed between 40 MWh and 50 MWh battery energy storage capacity to date. However, a new national legislation as well as funds provided through the ...

Bulgaria launches call for grants for standalone energy storage units

Bulgaria prepared EUR 589 million in grants for standalone energy storage projects. The deadline for applications is November 21.

Bulgaria installs over 9 GWh of batteries, with over ...

Bulgaria will finance 82 independent renewable energy storage projects worth over 1.15 billion leva (588 million euros) under the EU-funded program called RESTORE, the Energy Ministry in Sofia announced last week. ...

Largest battery storage system in Balkans commissioned in Bulgaria

The two entrepreneurs intend to charge the batteries when the price of electricity is low and use them in peak periods. Developer won subsidy at tender for standalone energy ...

Bulgaria Tenders , RFP, Bids, eProcurement , Bulgaria ...

Latest Bulgaria government tenders, RFP and eProcurement notices from the biggest online database of Bulgaria Tenders. Users can register to get info on eTenders, EOI, GPN and other ...

Bulgaria launches 3,000-MWh EU-backed energy storage tender

Bulgaria on Wednesday launched a long-delayed tender for at least 3,000 MWh of new energy storage capacity as part of its efforts to increase the share of renewable energy ...

Bulgaria gets 151 proposals in renewable energy storage tender

December 9 (SeeNews) - Bulgaria has received 151 project proposals worth a total of nearly 5 billion leva (\$2.7 billion/2.6 billion euro) in a tender to build renewable energy storage ...

Bulgaria launches EU's largest battery storage system

The new system also signals the beginning of Bulgaria's national plan to reach 10 GWh of battery storage capacity within the next year. A recent capacity tender has already allocated nearly 9,713 MWh to upcoming ...

An Outlook on 2025: Energy in Bulgaria

CMS Sofia Managing Partner Kostadin Sirleshtov and Counsel Borislava Piperkova talk about energy in Bulgaria in 2025. CEELM: What is in the pipeline in terms of legislation that you believe will have the most impact on the energy ...

'Mind-blowing' bids in Power China's 16GWh BESS tender

EPC firm Power China's recent 16GWh BESS supply tender has seen very low prices bid, amidst a squeeze of market share from state-owned firms.

September 8, 2025

3 ???· Aug 27 - UK energy regulator Ofgem has today announced the October - December 2025 Default Tariff Cap (price cap) at £1,755 - a 2% increase from July's cap set at an annual ...

Over 150 proposals submitted for Bulgaria energy storage initiative

A total of 151 proposals were submitted under Bulgaria's RRP's RESTORE program, aimed at building a national energy storage infrastructure for renewable energy ...

Bulgaria - pv magazine International

Bulgaria's standalone energy storage tender, which aimed to procure at least 3 GWh of cumulative usable capacity, ultimately awarded more than three times that amount.

Battery energy storage systems The case of Bulgaria: recent ...

"The repaired hydropower unit of the Chaira Hydroelectric Power Plant is about to undergo tests for launch in early 2025." (Mediapool, 24 October 2024) "No applicants: The second attempt to ...

Bulgaria: Energy Storage Infrastructure on the Rise in ...

In recent years, Bulgaria has increasingly prioritized the development of energy storage infrastructure as part of its broader transition to a more sustainable and resilient energy system. With growing renewable energy ...

Bulgaria's energy storage tender attracts EUR 2.5bn of projects

A Bulgarian tender for the construction of at least 3,000 MWh of energy storage systems has attracted 151 proposals worth a total of almost BGN 5 billion (EUR 2.56bn/USD ...

Bulgaria Launches Renewables Energy & Storage Tenders

The Ministry of Energy in Bulgaria has launched 2 separate calls to build new renewable energy capacity and energy storage facilities in the country with more than BGN ...
