

Irish wind and solar energy storage tender announcement

Overview

How much does an offshore wind project cost in Ireland?

In May 2023, Ireland's first o auction under the Offshore Renewable Electricity Support Scheme (ORESS) procured over 3 GW from four offshore wind projects at a "highly competitive" average price of EUR 86.05 (USD 93.67) per MWh.

What role will solar projects play in Ireland's renewable generation portfolio?

Solar projects will play a critical role in diversifying our renewable generation portfolio for the period out to 2030. "We have exceeded our target for Community projects participation. Seven communities are being supported to produce their own power and share in the ownership of Ireland's energy revolution, while inspiring others to follow.

How many solar farms does Neoen have in Ireland?

These two new projects significantly strengthen Neoen's Irish portfolio, which already includes three solar farms totalling 58 MWp, eight wind farms under operation with a total capacity of 53 MW and 80 MWp awarded in the RESS 2 tender.

Is solar transforming Ireland's energy system?

The auction results also reflect that solar is continuing to be the fastest growing renewable electricity source in the country and is rapidly transforming Ireland's energy system. Developing our solar capacity, in tandem with onshore and offshore wind, will ensure we can generate clean electricity all year round.

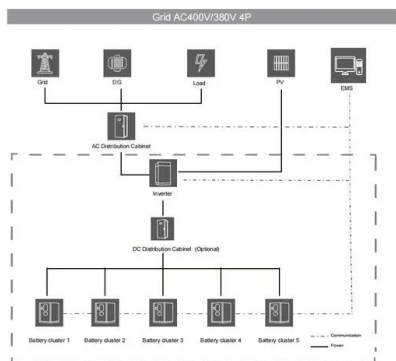

Why do we need solar power in Ireland?

Solar is highly complementary to wind generation, meaning this rapid growth of solar strengthens Ireland's ability to generate clean electricity all year round, enhancing our security of supply and helping to stabilise electricity prices.

Is Claremorris putting a solar farm on a dumping ground?

Speaking today at the announcement of the successful RESS-1 bidders, JP Prendergast, Chairman of the Claremorris and Western District Energy Coop, said: "We are so proud to be putting a solar farm, which is 100% community-owned, on to what was once a dumping ground – turning it from a brown site to green."

Irish wind and solar energy storage tender announcement

Ørsted secures solar energy contract under Irish RESS 5 onshore

The approved project is a solar development in Lodgewood, Wexford. A total of 18 solar projects were cleared in the auction, at an average strike price of EUR 98.81 per MWh.
