

## Italian energy storage forum

## Overview

---

When is Italy's leading energy storage event 2026?

Join us on April 15-16, 2026 for the 3rd edition of Italy's leading event on energy storage. The 2025 edition confirmed that energy storage is steadily advancing, with important regulatory updates, stronger public support at both EU and national levels, and increasing project execution.

What is energy storage Forum?

We are Europe's first conference dedicated solely to energy storage since 2010. All of our Forum's culminate with the unique Building the Action Plan feature. Join us for this session and take back an action list to the workplace.

Will Italy's renewables sector grow?

The forum highlighted the significant potential for growth in Italy's renewables sector but underscored the need for regulatory clarity, investment in grid and storage infrastructure. Key takeaways from the event:.

Why is energy storage a problem in the EU?

Energy storage suffers from lack of regulatory certainty within the EU. While a number of member states - Germany and the UK especially - have made great strides in adoption levels, lack of consistency is a looming issue.

Will Italian electricity TSO Terna participate in MACSE tender?

Italian electricity TSO Terna has received more than 100 GW of requests to participate in the energy storage auction it is planning before summer 2025. The first phase of the MACSE tender is expected to be the biggest battery procurement exercise held in Europe by that point.

Can off-shore wind support a sustainable Italian chain?

Off-Shore Wind: capacity targets from floating off-shore not sufficient to

support and achieve its greater potential and to create a sustainable Italian chain in the long term. We'd like to thank ALTHESYS Strategic Consultants and Alessandro Marangoni for co-hosting the event, and all the participants and speakers who joined us.
