How will italtvolt support Italy's Green industrialisation ambitions?

Italtvolt intends to honour Italy's important industrial legacy by supporting the country's green industrialisation ambitions, and by delivering battery cells which will help drive decarbonisation across a variety of industries. Italtvolt's 45GWh battery plant will be the Italy's largest, independent, battery cell factory.

What is Italy's largest battery cell factory?

Italtvolt's 45GWh battery plant will be the Italy's largest, independent, battery cell factory. The battery cell factory will focus on creating new opportunities for re-skilling and upskilling workers from Italy's automotive industry.

How big is italtvolt's battery plant?

Italtvolt is building a 300,000 square meter advanced battery plant that is expected to open in 2025 with an annual capacity of 45 GWH. The plant will meet the needs of electric vehicles, industrial equipment and grid energy storage, and will employ about 3,000 people.

Is Italy a good place to start a battery industry?

Today, Italy holds significant opportunity for the modern battery industry, with its strategic location and highly skilled workforce. Italy has a rich industrial heritage, especially as a hub of Europe's automotive industry, offering access to a large, skilled workforce.
