

## Large scale battery storage tender price in Argentina 2025

**5 Years  
warranty**

## Overview

---

The AlmaGBA Storage tender, for the metropolitan area of Buenos Aires (AMBA), will pay a fixed \$10/MW of electricity supplied and energy storage capacity bids must have a maximum cost of \$15,000/MW/month.

The AlmaGBA Storage tender, for the metropolitan area of Buenos Aires (AMBA), will pay a fixed \$10/MW of electricity supplied and energy storage capacity bids must have a maximum cost of \$15,000/MW/month.

The AlmaGBA Storage tender, for the metropolitan area of Buenos Aires (AMBA), will pay a fixed \$10/MW of electricity supplied and energy storage capacity bids must have a maximum cost of \$15,000/MW/month. Argentina's Wholesale Electricity Market Administration Company (CAMMESA) has published a.

Approved bidders will receive \$10/MW for electricity supplied, and the energy storage capacity bids must remain under a ceiling of \$15,000/MW/month—rates aimed at encouraging cost discipline without discouraging participation. Contracts will be signed with Edenor and Edesur, the country's major.

The first large-scale battery energy storage tender in Argentina is catching the attention of the international community as an unequivocal step towards modernizing power infrastructure. Intended to strengthen the grid in the greater Buenos Aires region, the program has attracted a lot of.

In February 2025, Argentina's Energy Secretariat, under the Ministry of Economy, initiated an international tender to integrate 500 megawatts (MW) of battery energy storage systems (BESS) into the Metropolitan Area of Buenos Aires (AMBA). This ambitious project, estimated at \$500 million, aims to.

Argentina has awarded 667MW of battery energy storage system (BESS) in its first tender under the AlmaGBA scheme. Nearly half of the volume submitted for the tender (1.3GW) has been awarded by the wholesale market operator CAMMESA (Compañía Administradora del Mercado Mayorista Eléctrico

Sociedad.

The Argentine Energy Secretariat has received significantly more bids than expected for its public call to install large-scale battery energy storage systems (BESS) in the Buenos Aires metropolitan area (AMBA). Although the tender aimed for 500 MW, the AlmaGBA procurement drew proposals totaling. Does Argentina have a battery storage tender?

Argentina has opened a \$500 million battery storage tender aimed at adding 500 MW of new energy storage capacity in the Buenos Aires metropolitan area. The AlmaGBA program, managed by CAMMESA, offers long-term contracts with fixed payments and financial guarantees to attract developers.

How many MW of battery energy storage will be deployed in Buenos Aires?

The initiative aims to deploy 500 MW of battery energy storage systems (BESS) in the Greater Buenos Aires Area (GBA), but the submitted capacity has far exceeded expectations—reaching a combined 1,347 MW.

Can battery energy storage modernize Argentina's grid?

Argentina's ambitious push toward grid modernization through battery energy storage has received an enthusiastic response, with CAMMESA (Compañía Administradora del Mercado Mayorista Eléctrico) confirming the submission of 27 project proposals from 15 companies under its AlmaGBA program.

Will a 1.3 GW battery storage tender lead to a more robust energy future?

Make sure that these groundbreaking projects end successfully and the fruits of their experience help form a more robust energy future—not only in Latin America, but everywhere. Argentina's 1.3 GW battery storage tender marks a transformative leap toward grid resilience and clean energy leadership in Latin America.

What does the almagba tender mean for Argentina?

The AlmaGBA tender not only signals growing investor confidence in Argentina's energy transition but also sets the stage for grid resilience and renewable integration. Evaluation of submissions is now underway, with final selections expected to shape the country's storage landscape for years to come.

Is IFC financing India's largest stationary battery energy storage system?

In a LinkedIn post, Diep Nguyen-van Houtte of the International Finance Corporation (IFC) announced IFC's participation in financing India's largest stationary battery energy storage system (BESS), developed by the IndiGrid Infrastructure Trust. The.

## Large scale battery storage tender price in Argentina 2025

### Pierwszy przetarg w Argentynie na systemy magazynowania ...

Argentina has taken a decisive step toward modernizing its power infrastructure, drawing international attention with its first large-scale battery energy storage tender. Designed ...
