

Manchester wins bid for energy storage project

Overview

Spencer Group will deliver a £23m contract to design the site layout and deliver the enabling works and civils for the UK's first commercial scale liquid air long duration energy storage facility, which is being developed at Trafford Energy Park in Carrington, Manchester.

Spencer Group will deliver a £23m contract to design the site layout and deliver the enabling works and civils for the UK's first commercial scale liquid air long duration energy storage facility, which is being developed at Trafford Energy Park in Carrington, Manchester.

Planning permission has been granted for a £750m battery energy storage scheme (BESS) near Manchester. Carlton Power, the independent energy-infrastructure developer behind the venture, said the 1GW facility at the Trafford Low Carbon Energy Park would be the world's largest battery-storage.

Engineering and infrastructure specialist Spencer Group has been appointed to play a key role in the development of a pioneering new energy plant which aims to reshape the future of renewable energy. Spencer Group will deliver a £23m contract to design the site layout and deliver the enabling works.

Liquid air energy storage firm Highview Power has raised £300 million (US\$384 million) from the UK Infrastructure Bank (UKIB) and utility Centrica to immediately start building its first large-scale project. The funding will enable Highview to launch construction on a 50MW/300MWh long-duration.

Highview Power has secured a £300 million investment to build the UK's first commercial-scale liquid air energy storage (LAES) plant. This funding comes from the UK Infrastructure Bank, Centrica and a consortium of investors including Rio Tinto, Goldman Sachs, KIRKBI and Mosaic Capital. The new.

Statera Energy has acquired a 680MW battery energy storage system (BESS) project in north-west England. Located at Trafford Low Carbon Energy Park in Greater Manchester Carrington Storage is expected to become one of the largest of its kind in Europe once fully energised in 2026. At 680MW, it will.

UK energy storage company Highview Power has secured £10m (\$12.4m) funding from the UK Department for Business, Energy and Industrial Strategy (BEIS) for a 50MW cryogenic energy storage facility. The firm has collaborated with a power station developer, Carlton Power to build and operate the.
