

Mingsen ecological energy storage

Overview

Jiangmen Mingsen New Energy, founded in 2013, focuses on new energy solutions like solar photovoltaic and energy storage systems. Located near Jiangmen National High-tech Zone, we provide customized lithium battery packs and aim to drive clean energy development globally.

Jiangmen Mingsen New Energy, founded in 2013, focuses on new energy solutions like solar photovoltaic and energy storage systems. Located near Jiangmen National High-tech Zone, we provide customized lithium battery packs and aim to drive clean energy development globally.

Jiangmen Mingsen New Energy Co., Ltd was founded in 2013 we are a technology enterprise specializing in new energy with high quality products. We demand to dedicate to provide our customer with high quality energy storage systems. Promote the development of clean energy technology and contribute to.

Mingsen focuses on providing customers with solar lithium battery and light source bare board controller solutions, solar energy storage inverter control integrated machine and lithium battery applications. It is a high-tech enterprise integrating R&D, production and sales. After years of research.

Jiangmen Mingsen New Energy, founded in 2013, focuses on new energy solutions like solar photovoltaic and energy storage systems. Located near Jiangmen National High-tech Zone, we provide customized lithium battery packs and aim to drive clean energy development globally. Core Advantages.
