

## Mobile ESS unit project financing options in Philippines 2025

## Overview

---

How will ADB finance EVCS in the Philippines?

ADB's financing, along with the concessional loan, will be used to develop a network of EVCS in the Philippines. This blended financing features an innovative pricing structure aimed at accelerating deployment of EVCS infrastructure.

How much money will the Philippine government borrow in 2025?

Listen to the article. The Philippine government is set to borrow \$6.35 billion (approximately PHP 369.66 billion) in 2025 from the Asian Development Bank (ADB) and the World Bank to support transformative development initiatives.

Who sells EVs in the Philippines?

ACMobility is the official distributor of Kia, Volkswagen and BYD vehicles in the country. It also operates dealer networks for Honda and Isuzu. The Philippines is still in the early stages of EV development, with high costs and limited charging infrastructure posing barriers to EV adoption.

How much money will the fused program have by 2030?

At the end of the FUSED Program by 2030, it is expected to have at least funded Php 40 Billion of the estimated investment requirement for power generation and distribution in the Philippine Energy Plan 2012-2030. Specific Development Objectives: 1.

Is the Philippines ready for EV adoption?

The Philippines is still in the early stages of EV development, with high costs and limited charging infrastructure posing barriers to EV adoption. Through the Electric Vehicle Industry Development Act and tax incentives, the government aims to create a more favorable environment to support the growth of the EV industry.

## Why is EV development nascent in the Philippines?

Electric vehicle (EV) development is still nascent in the Philippines. High initial costs, limited charging infrastructure, and evolving technologies have posed significant barriers to adoption of EVs in the country.
