

Mobile ESS unit project financing options in Poland 2030

Overview

Can Poland co-finance electricity storage facilities?

Credit: Phonlamai Photo/Shutterstock. Poland's National Fund for Environmental Protection and Water Management (NFOŚiGW) has initiated a call for applications for co-financing electricity storage facilities. The programme, funded by the country's Modernisation Fund, has a budget of more than 4bn zlotys (\$1.02bn).

Are energy storage systems a new technology in Poland?

Energy storage systems are a relatively new technology in the Polish capacity market. They have participated in two auctions so far: making their official debut in 2022 (with 2027 delivery year) and subsequently dominating the competition in the 2023 auction.

How much money is needed to support Poland's Bess project?

The European Commission has approved a EUR1.2 billion aid package to support Poland's rollout of BESS, aiming to establish at least 5.4 GWh of storage capacity.

How much PLN will be distributed under the energy subsidy scheme?

A total of PLN 4 billion (\$1 billion) will be distributed under the subsidy scheme by the end of 2025 in a bid to bring online more than 5 GWh of energy storage projects by 2028.

What is the European Commission subsidy scheme?

The European Commission authorized the subsidy scheme in October 2024 to the tune of €1.2 billion in a bid to support the installation of at least 5.4 GWh of new electricity storage facilities.

How will the Polish aid package work?

The Polish aid package will be funded by both the Modernisation Fund and the Recovery and Resilience Facility. Poland's energy grid remains heavily dependent on carbon-intensive sources, with around 70% of its electricity generation in 2023 still reliant on coal and gas.

Mobile ESS unit project financing options in Poland 2030

Empowering Poland: The role of international ...

Summary Poland, a country historically reliant on energy imports, has proactively engaged in international cooperation to boost its energy security. This cooperation extends beyond mere imports to include the ...

Europe's energy storage fleet reaches 89 GW

The fleet of energy storage projects in Europe, including both pumped hydro and battery energy storage systems of all sizes, is expanding rapidly. This growth is set to continue ...

Energy storage subsidy programs in Poland for 2024 ...

Energy storage subsidies in Poland for 2024-2025 support the country's energy transition, increasing RES efficiency and grid stability.

Polish plans for large and small reactors progress

"By 2030, we plan to build at least one modern

and completely safe nuclear block in Poland," said PKN Orlen CEO and President Daniel Obajtek. "We have picked several ...
