But when Montevideo energy storage contracts started reshaping South America's power grid last month, even my neighbor's dog seemed interested (okay, maybe that's the leftover empanada scent). As of March 2025, Uruguay's capital has become the testing ground for hybrid storage solutions combining.

capacity (kWh/kWp/yr). The bar chart shows the proportion of a country's land area in each of these classes and the global distribution of land area across the world at a height of 100m. The bar chart shows the distribution of the country's land area in each of these classes compared to the global.
