

National development and reform commission develops energy storage

Overview

When will new energy storage development be introduced?

The commission said earlier it will introduce a plan for new energy storage development for 2021-25 and beyond, while local energy authorities should also make plans for the scale and project layout of new energy storage systems in their regions.

What is the NDRC 'Special Action Plan'?

The “Special Action Plan for Large-Scale Construction of New Energy Storage (2025-2027)” released by the National Development and Reform Commission (NDRC) and the National Energy Administration (NEA) outlines a roadmap to scale up energy storage to support the country’s rapidly expanding renewable energy capacity.

What is the new energy storage action plan?

The new action plan, grounded in the nation’s dual carbon goals, aims to grow the national new energy storage fleet to 180 GW by 2027. It responds to the urgent need for flexible energy regulation amid rapid renewable energy expansion.
