

North asia pingmei energy storage project

Overview

The five parties jointly invested in the construction of the Group's 60GWh energy storage and power battery project. The total investment of the project is 10 billion yuan, divided into two phases, and the annual output value can reach 40 billion yuan after the full.

The five parties jointly invested in the construction of the Group's 60GWh energy storage and power battery project. The total investment of the project is 10 billion yuan, divided into two phases, and the annual output value can reach 40 billion yuan after the full.

Recently, according to a reporter from Jiandao Network, three more energy storage projects have started construction, one energy storage project has been registered and approved, and the total investment of the four projects is nearly 20 billion yuan. 60GWh energy storage and power battery project.

On the morning of October 22, the signing ceremony of the 60GWh annual energy storage and power battery project of China Pingmei Shenma Group was held at Zhongyuan Yuzi Investment Holding Group (hereinafter referred to as Yuzi Holding) in Zhengzhou. Li Mingjun, Mayor of Pingdingshan City, Li Mao.

The Pingmei Shenma Group's 60GWh energy storage and power battery project (Phase I) has recently started construction in the New China High-tech Industrial Park. The total investment of the project is 10 billion yuan, divided into two phases, and the annual output value can reach 40 billion yuan.

On the morning of November 9th, the China Pingmei Shenma Group's 60GWh energy storage and power battery project (Phase I) started in the New China High-tech Industrial Park. It is understood that on the morning of October 22nd, China Pingmei Shenma Group, Henan Automobile Industry Investment Group.

On November 22nd, the signing ceremony for the strategic cooperation agreement between CATL and China Pingmei Shenma Group ("Pingmei Shenma Group") was held in Ningde, southeast China's Fujian Province. CATL

has always been dedicated to advancing energy transition, as well as green and low-carbon.

According to data from China's Energy Storage Application Branch (CESA), mainland China has seen a surge in energy storage activity, with 1,468 new project applications and 88 manufacturing initiatives launched. From ESS News China continued its high-growth energy storage market expansion in July.
