

Paineng technology energy storage lithium battery

Overview

The company vertically integrates the three core links of research and development and production of energy storage lithium batteries, BMS research and development, and system integration, with high-performance energy storage lithium batteries and advanced.

The company vertically integrates the three core links of research and development and production of energy storage lithium batteries, BMS research and development, and system integration, with high-performance energy storage lithium batteries and advanced.

Paineng Technology focuses on the development and application of lithium battery energy storage products, providing leading comprehensive solutions for lithium battery energy storage systems. The company vertically integrates the three core links of research and development and production of energy.

[Paineng Technology Overweight Lithium Battery Energy Storage Project] On the evening of May 10, Paine Technology announced that the company plans to invest 5 billion yuan to build a 10GWh lithium battery R&D and manufacturing base project in Feixi County, Hefei City. Editor/He Yuting On the.

On June 9, 2022, Paineng Technology announced that the company intends to issue stocks to specific objects to raise a total of no more than 5 billion yuan, which will be used for Paineng Technology's 10GWh lithium battery R&D and manufacturing base project after deducting relevant issuance.
