

Paineng technology energy storage revenue

Overview

The company's recent financial results reveal a decline in performance, with a reported 2024 revenue of 2.005 billion yuan, down 39.2% from the previous year. Additionally, the net profit attributable to shareholders was 41.11 million yuan, representing a staggering 92.0% decline.

The company's recent financial results reveal a decline in performance, with a reported 2024 revenue of 2.005 billion yuan, down 39.2% from the previous year. Additionally, the net profit attributable to shareholders was 41.11 million yuan, representing a staggering 92.0% decline.

PaiNeng Technology, known as the “first stock in energy storage,” is currently facing significant pressure as its market value has evaporated by 60 billion yuan. The company's recent financial results reveal a decline in performance, with a reported 2024 revenue of 2.005 billion yuan, down 39.2%.

Shanghai Paineng Energy Technology Co., Ltd. was established in 2009 and listed on the A-share market in 2020 as the first energy storage stock. Paineng Technology focuses on the development and application of lithium battery energy storage products, providing leading comprehensive solutions for. What is paineng technology?

Paineng Technology's main business is lithium battery packs for energy storage and energy management systems. It is positioned as a lithium battery system provider in the energy storage industry chain, and masters the focus of cost and technology—the production of lithium batteries.

Is paineng a household energy storage company?

Paineng is a household energy storage company. This can be inferred from the cooperation with foreign integrator brands, and the company's top five customers account for more than 40%.

What is Shanghai paineng energy technology?

Shanghai Paineng Energy Technology Co., Ltd. was established in 2009

(hereinafter referred to as "Paineng Technology"). It was officially listed on the Science and Technology Innovation Board of the Shanghai Stock Exchange on December 30, 2020, and is known as the first energy storage stock.
