

Poland lithium energy storage power supply purchase

Overview

What is the largest battery energy storage facility in Poland?

With a power output of 262 MW and a storage capacity of around 981 MWh, the facility will be by far the largest battery energy storage facility in Poland and one of the largest in Europe. The contractor on the project will be LG Energy Solution Wrocław.

How much money does Poland spend on battery energy storage?

Poland has finalized a comprehensive subsidy program aimed at accelerating the deployment of battery energy storage systems (BESS), with a total budget of PLN 4 billion (approximately €1 billion).

What is Poland's energy storage subsidy?

Learn about Poland's €1 billion energy storage subsidy aimed at installing 5.4 GWh of BESS by 2028, strengthening grid stability and accelerating the green transition.

What is the most advanced energy storage project in Poland?

The most advanced energy storage project in the PGE Group's portfolio is the Żarnowiec Energy Storage Facility. With a power output of 262 MW and a storage capacity of around 981 MWh, the facility will be by far the largest battery energy storage facility in Poland and one of the largest in Europe.

Why should Poland invest in energy storage facilities?

Investments in energy storage facilities are key to Poland's energy transition. They increase the flexibility of the energy system and promote the integration of renewable energy sources into the grid.

What is Poland's energy storage program?

The program , "Electricity storage facilities and infrastructure for improving

the stability of the Polish power grid,” is aimed at companies planning to invest in energy storage facilities with a capacity of at least 2 MW and a minimum capacity of 4 MWh.
