

Poland's energy storage project won the bid

Overview

Greenvolt Group, through Greenvolt Power, has sold a large-scale battery energy storage system (BESS) project in Kozienice, Poland, with a capacity of 112 MW/448 MWh. The buyer is DRI, the EU renewable arm of DTEK, Ukraine's largest private power company.

Greenvolt Group, through Greenvolt Power, has sold a large-scale battery energy storage system (BESS) project in Kozienice, Poland, with a capacity of 112 MW/448 MWh. The buyer is DRI, the EU renewable arm of DTEK, Ukraine's largest private power company.

The results of Poland's recent capacity market auction have been revealed, with a clearing price significantly lower than the previous years and IPP Greenvolt saying it won the lion's share of around 1.7GW of BESS awarded contracts. The auction which took place last month (December 2023) cleared at.

BESS has won big in Poland's capacity market (CM) auction for 2029 delivery, with potentially 2.5GW of projects winning contracts including from Axpo, OX2, R.Power, FRV and PGE. A total of 12GW of CM obligations, starting in 2029, were awarded in the auction which concluded last week, transmission.

Polish utility PGE Group is planning to add more than 80 energy storage facilities through to 2035 to the tune of PLN 18 billion (\$4.7 billion). One of these will be the 981 MWh Zarnowiec battery energy storage project, which will be supplied with locally produced LG Energy Solution's grid-scale.

The much anticipated capacity market auction for 2029 conducted by Polskie Sieci Elektroenergetyczne (PSE) ended in the seventh round with a price of PLN 264.90/kW/year (\$65/kW/year). Such a clearing price rendered gas projects uneconomical and left significant room for battery storage systems to.

A total of PLN 4 billion (\$1 billion) will be distributed under the subsidy scheme by the end of 2025 in a bid to bring online more than 5 GWh of energy storage projects by 2028. Following a public consultation launched in July 2024, the

Polish Ministry of Climate and Environment has finalized its.

Greenvolt Group, through Greenvolt Power, has sold a large-scale battery energy storage system (BESS) project in Kozienice, Poland, with a capacity of 112 MW/448 MWh. The buyer is DRI, the EU renewable arm of DTEK, Ukraine's largest private power company. This transaction underscores Greenvolt. Is Polish capacity market auction a success for battery energy storage projects?

From ESS News The Polish capacity market auction for 2029 which awarded more than 8 GW of capacity contracts was a success for battery energy storage projects.

What is the most advanced energy storage project in Poland?

The most advanced energy storage project in the PGE Group's portfolio is the Żarnowiec Energy Storage Facility. With a power output of 262 MW and a storage capacity of around 981 MWh, the facility will be by far the largest battery energy storage facility in Poland and one of the largest in Europe.

What is the largest battery energy storage facility in Poland?

With a power output of 262 MW and a storage capacity of around 981 MWh, the facility will be by far the largest battery energy storage facility in Poland and one of the largest in Europe. The contractor on the project will be LG Energy Solution Wrocław.

How much capacity does hynfra energy storage have in Poland?

Hynfra Energy Storage has secured 153 MW of capacity in Poland's main capacity market auction for the 2029 delivery year, the company announced. The winning bids included two projects: BESS9 in Warsaw, with a capacity of 100.2 MW and 200.4 MWh, and BESS10 in Zabrze, with a capacity of 203.7 MW and 814.7 MWh.

What happened at Poland's capacity market auction?

The results of Poland's recent capacity market auction have been revealed, with a clearing price significantly lower than the previous years and IPP Greenvolt saying it won the lion's share of around 1.7GW of BESS awarded contracts.

What is Poland's energy storage subsidy program?

Following a public consultation launched in July 2024, the Polish Ministry of Climate and Environment has finalized its energy storage subsidy program which aims to support the deployment of more than 5 GWh of energy storage in the country. The new regulation was published in the Journal of Laws of the Republic of Poland on March 7.

Poland's energy storage project won the bid

How Energy Storage Battery Projects Are Winning Big in Global Bids

Why Energy Storage Battery Bids Are Making Headlines Ever wondered why phrases like "energy storage battery won the bid" keep popping up in news feeds? From China's massive ...

Greenvolt wins big at the Polish capacity auction with ...

Greenvolt Group, through Greenvolt Power, a subsidiary responsible for global development, construction, and operation of utility-scale ...

Conclusions from the 7th capacity market auction

Although Polish energy companies have not completely abandoned gas projects, fewer appeared in the auction than previously announced. There is also clearly a greater variety of ...

Greenvolt, BYD to Develop Poland's Energy Storage Projects

A contract for the design and operation of two

large-scale energy storage projects in Poland has been signed between Greenvolt Power, a subsidiary of Portugal's Greenvolt ...

EU okays Polish EUR 1.2bn state-aided energy-storage project

The European Commission (EC) has greenlit Poland's USD 1.2bn scheme for projects to increase electricity storage capabilities to foster the transition to a net-zero economy ...

POLAND'S ENERGY STORAGE PROJECT WON THE BID

Will EDF renewables build a second battery energy storage facility in Poland? EDF Renewables has completed the acquisition of a second battery energy storage project in Poland, with a ...

Poland launches tender for 263 MW/900 MWh battery storage

...

Polish utility PGE Group has launched a tender for the design and construction of a battery storage facility with a minimum capacity of at least 900 MWh. Meanwhile, Ukraine's ...
