

## Portable energy storage power supply customization solution

## Overview

---

What is a portable power station & a home energy storage battery?

Product portfolio includes portable power stations (300W-2000W) for on-the-go applications and home energy storage batteries (5kWh-30kWh) for residential use, providing solutions that scale with your customers' diverse energy needs. Perfect for field work, outdoor events, and mobile operations Home energy independence and backup power solutions.

Why is storing and supplying electricity important?

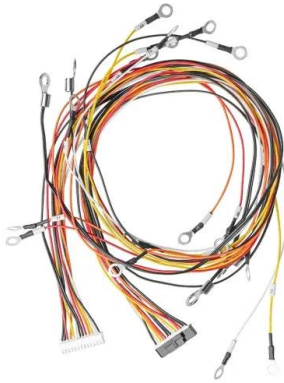

Storing and supplying electricity in a home environment, capable of storing electricity obtained from the grid or renewable energy sources, can be used for power supply in case of power shortages or outages, improving household electricity reliability, energy conservation and emission reduction, and reducing electricity bills.

What is a power supply used for?

Used as starting power supply for automobiles/motorcycles and other equipment Critical equipment protection during power outages Reliable power for all your comfort and communication needs. Uninterrupted uptime for critical IT infrastructure
