On September 2, 2025, the fourth Green Energy Auction (GEA-4) organized by the Philippines' Department of Energy (DOE) concluded successfully, securing commitments for over 9,423 MW of new renewable energy capacity. This accounts for 88% of the 10,653 MW target set for this round. A total of 111.

The Philippines Department of Energy (DOE) has launched the fourth round of its GEA-4 program to accelerate renewable energy development and integration across the country. The renewables procurement process began with the issuance of an initial notice on March 29, 2025, followed by advisory.

Preliminary results from the fourth renewables auction in the Philippines show 9.4 GW in awarded solar, wind and storage projects, short of the 10.6 GW target, with remaining capacity in floating solar and solar-plus-storage to be reassigned to qualified bidders. The Philippines' fourth Green.

MANILA - The Department of Energy (DOE) on Wednesday released the Terms of Reference (TOR) for the fourth round of the Green Energy Auction (GEA-4), bidding 10,478 megawatts (MW) of capacity from solar, onshore wind, and integrated energy storage technologies. In a statement, the agency said 9,378.

The Philippines Department of Energy (DOE) has launched a tender that will facilitate the integration of more than 9 GW of new renewable power generation capacity, some of which to be paired with battery energy storage. The government released the Terms of Reference (TOR) for solicitation, to be.

The Philippines Department of Energy (DOE) has started an auction scheme for renewable power paired with storage which aims to tender over 9GW of capacity. The DOE officially released the Terms of Reference (TOR) on 13 March for the competitive solicitation, which will be held as part of the fourth.
